Centre does a volte-face, rolls back 'Sanchar Saathi'

The DoT states it is removing the order mandating installation of the Sanchar Saathi app, following a 10-fold jump in voluntary app downlaods in just one day

NEW DELHI

The Centre, after backlash, removed on Wednesday the mandatory pre-installation of Sanchar Saathi cybersecurity app for mobile manufacturers.

The Department of Telecom (DoT) stated that it was rolling back the requirement after a sharp rise in voluntary downloads. "Just in last one day, 6 lakh citizens have registered for downloading the app, which is a 10x increase in its uptake. Given Sanchar Saathi's increasing acceptance, the government has decided not to make the pre-installation mandatory for mobile manufacturers," it stated.

The mandate to pre-install "was meant to accelerate this process", it added.

"The government, with an intent to provide access to cybersecurity to all citizens, mandated pre-installation of Sanchar Saathi app on all smartphones.

The app is secure and meant to help citizens from bad actors in the cyber world. There is no other function other than protecting users... and they can remove the app," it stated.

The mandate, issued on November 28, required companies to ship all new devices, and update older ones, with the app.

The directive by the government, which projected the app as a crucial cybersecurity tool designed to help citizens track lost phones and prevent telecom fraud, triggered debate over privacy issues and opposition parties raised concerns about potential surveillance, data privacy violations, and the constitutional validity of such a mandate.

The order triggered widespread criticism, with opposition parties claiming the directive enabled state surveillance and raised concerns that the app could listen to calls or monitor messages.

Just like any other app on your phone, Sanchar Saathi is an option. Citizens may use it if they want, or uninstall it anytime. In a democracy, the final authority is with the citizens. We are always ready to amend rules based on citizens' suggestions and feedback.

—Jyotiraditya Scindia, Union Minister for Communications

'Sanchar Saathi an option like any other app'

During a discussion in the Lok Sabha on Wednesday, Union Minister for Communications and Development of the North Eastern Region, Jyotiraditya Scindia informed the Parliament that the government is willing to amend the rules of the platform based on public suggestions and feedback. Scindia, stressing that "Snooping is neither possible through the Sanchar Saathi app, nor will it ever be", told Parliament that the app does not function without user registration, and every citizen has the full right to choose whether to use it or delete it anytime.

BEHIND THE ROW

Initial mandate: On November 28, 2025, the DoT issued a directive requiring all new mobile handsets manufactured or imported into India to have the app pre-installed.

Privacy concerns: Opposition parties and privacy advocates criticized the move, calling the app a potential "snooping app" and a violation of the right to privacy.

Let him go, I won't go without invite: Siddu

BENGALURU

Chief Minister Siddaramaiah on Wednesday said he would not travel to New Delhi unless he is formally invited.

As his deputy D K Shivakumar flies to Delhi amid the ongoing power-tussle in Karnataka, Chief Minister Siddaramaiah on Wednesday said he would not travel to New Delhi unless he is formally invited

"Let him go. I will go only if I receive a call. I have not received a call so far," the CM told reporters here.

Speculation in political circles has intensified once again after DK Shivakumar flew to Delhi on Wednesday afternoon. Although Shivakumar said he was going to Delhi for a private marriage function, there is a high chance he will meet top party leaders to discuss the ongoing political crisis in his home state.

Going for a marriage function: DKS

Speaking to reporters here, Shivakumar said he will be back in Bengaluru for a cabinet meeting after attending brief meetings and a marriage function. "I am going to Delhi for a private marriage function. On December 14, we will be going to Ramlila Maidan, where a very big programme has been organised. From Karnataka, we need at least 300 people to visit Delhi. I have asked all the district ministers and MLAs to monitor that and take all the party cadres to the vote chori programme. I am going there to see the arrangements, and I will come back tomorrow morning for a cabinet meeting. I will just attend the marriage and 2-3 small meetings, and I will come back", the Deputy CM said.

Issue could take 30 months or three years: Jarkiholi

PWD Minister Satish Jarkiholi fuelled further speculation over the power tussle, saying the issue could take "30 months or three years". "I said it could be 30 months or it could be three years," he told reporters in Mangaluru. This comes as KC Venugopal witnessed a display of internal party dynamics upon his arrival at Mangaluru airport.

It's all over now: Parameshwara

Meanwhile, Home Minister G Parameshwara said he does not wish to comment further on recent political differences, saying any minor issues have been resolved. "I dont want to comment unnecessarily. It's all over now. Whatever little difference was there, if it was there, has been resolved," he told reporters.

100-day 'Bal Vivah Mukt Bharat' campaign from today

NEW DELHI

The 100-Day Intensive Awareness Campaign for a Child Marriage-Free Bharat will be formally launched on Thursday (December 4) at Vigyan Bhawan, New Delhi, to mark one year of the 'Bal Vivah Mukt Bharat' campaign.

The Ministry of Women and Child Development had launched the 'Bal Vivah Mukt Bharat' campaign on November 27, 2024, and it completed one year on November 27, 2025.

As per the release, Thursday's launch event will be graced by the Union Minister of Women and Child Development, Annpurna Devi, in the presence of the Minister of State, Savitri Thakur.

200 IndiGo flights cancelled, Ops hit

NEW DELHI

India's largest airline IndiGo is facing one of its most severe operational breakdowns in recent years. It has been forced to delay and cancel hundreds of flights across the country as it struggles to cope with new pilot rest and duty-hour norms, even a month after their implementation.

As per IndiGo website, it operates over 2,200 daily flights. While the government data from Tuesday shows the airline's on-time performance plunging to 35%, a dramatic fall for a carrier long associated with punctuality. The data implies over 1,400 flights were delayed on Tuesday. The turbulence continued on Wednesday when airports in Hyderabad, Delhi, Bengaluru and Mumbai collectively reported close to 200 IndiGo flight cancellations by afternoon, triggering chaos among passengers.

Meanwhile, the Mumbai airport issued a statement, "Some IndiGo flights operating from Mumbai Airport may experience delays or cancellations due to airline-related operational issues."

What caused chaos?
The airline's unpreparedness, stemming from poor planning and insufficient hiring, has led to disruptions during peak travel season, frustrating passengers and exposing operational challenges.

'Crew shortage after new duty norms'
As per reports, a significant factor behind the chaos is a sharp shortage of crew, particularly pilots, following the introduction of revised Flight Duty Time Limitation (FDTL) norms last month. The new rules mandate more rest hours and humane rosters, but IndiGo has been struggling to realign its massive network accordingly. According to sources, many flights had to be grounded because no cabin crew was available, while others faced delays stretching up to eight hours. With IndiGo commanding more than 60% of the domestic airline market, the ripple effect from its disrupted schedule has been felt severely.

12 Maoists killed, 3 DRG Jawans martyred

BHOPAL

One of the biggest anti-Maoist offensives in recent months is unfolding in the dense forests of the West Bastar along the Bijapur-Dantewada inter-district border. Security forces have recovered the bodies of 12 Maoist cadres so far, as the joint operation launched early Wednesday continues deep inside Maoist strongholds.

Chhattisgarh Chief Minister Vishnu Deo Sai said, "Today, our brave security forces neutralised 12 Maoists in the ongoing anti-Naxal operation in Bijapur district. Continuous search and combing operations are underway in the area. In this encounter, DRG Bijapur's Head Constable Monu Waddi, Constable Dukaru Gonde, and Constable Ramesh Sodi made the supreme sacrifice. I pay my humble tribute to these brave soldiers."

Bijapur SP Dr Jitendra Yadav confirmed that teams from DRG Bijapur-Dantewada, STF, CRPF, and CoBRA were conducting a coordinated search when they came under heavy Naxal fire around 9 am. Intermittent gunfire persisted for hours, with security forces executing an aggressive counter-offensive.

Bastar Range IG Sundarraj P stated that weapons recovered from the encounter site include SLR rifles, INSAS rifles, and .303 rifles, along with other arms and ammunition.

Woman kills 4 kids out of 'jealousy'

Haryana: The probe into the killings began after the recent death of six-year-old Vidhi, who was found dead on Monday with her head submerged in a water tub and her feet on the ground in the storeroom of her relative's house.

The accused, Poonam, had earlier killed three children, including her own son in 2023 in the same way as her niece by drowning, the police said. She allegedly murdered the girls "out of jealousy" as she thought the children were prettier than her. Further, Poonam killed her son to allegedly avoid suspicion of killing the girls. In the recent incident, Poonam's niece, six-year-old Vidhi, who lived in Sonipat, had come to Naultha village with her grandparents, parents and 10-month old brother to attend a wedding.The incident occurred when the wedding procession arrived in Naultha. Soon, Vidhi's father received a phone call informing him that she was missing, and the family began searching for her.

MP cough syrup deaths: ED attaches assets of Coldrif promoter in Chennai

NEW DELHI

Two flats in Tamil Nadu's Chennai belonging to the promoter of Sresan Pharmaceuticals, the manufacturer of Coldrif cough syrup linked to the death of 20 children in Madhya Pradesh, have been attached under the anti-money laundering law, the Enforcement Directorate said on Wednesday. The flats worth Rs 2.04 crore at Kodambakkam are owned by G Ranganathan and his family members, it stated. Ranganathan was arrested by Madhya Pradesh Police in October.

Cong MLA Pappi duped man of Rs 8 cr: Probe

BENGALURU

Congress MLA Veerendra Pappi, who has been accused of running a betting racket involving crores, has been arrested by the Enforcement Directorate and has already spent three months in the central agency's custody. However, the ED has now launched another probe against Veerendra Pappi.

K C Veerendra had allegedly cheated an out-of-state person of Rs 8 crore and the ED hase recorded the statement from the individual. After recording his statement, the individual filed a complaint with the central agency.

CASTE OPPRESSION, REALLY?

'Reserved-quota students dominate higher edu enrollment'

NEW DELHI

A new study of India's higher education landscape reveals a dramatic shift in caste-wise enrolment patterns over the past decade, with Scheduled Castes (SC), Scheduled Tribes (ST), and Other Backward Classes (OBC) now forming the overwhelming majority of students across the country's higher educational institutes.

As per a statement, the findings, based on 13 years of All-India Survey of Higher Education (AISHE) data, challenge widely circulated claims about "upper-caste dominance" in India's education sector.

According to the study, conducted by the Centre for Development Policy and Management (CDPM) at IIM Udaipur, researchers analysed census-level AISHE reports from 2010–11 to 2022–23, covering 60,380 institutions and 43.8 million students.

The research team — Prof Venkatramanan Krishnamurthy, faculty in Quantitative Methods and Information Systems at IIM Udaipur; Thiyagarajan Jayaraman, IT specialist and Data Research Analyst; and Prof Dina Banerjee, faculty in Organizational Behaviour and Human Resource Management at IIM Udaipur — describes the dataset as one of the most comprehensive examinations of caste representation in Indian higher education sector to date.

It has found that students from SC/ST and OBC categories outnumber the enrollment of general category students into higher education."This report shatters several widespread misconceptions about the social composition of students in Indian higher education," says Prof Venkatramanan.

STUDY FINDINGS

- The combined share of SC/ST/OBC students in higher education rose from 43.1% in 2010-11 to 60.8% in 2022-23.
- In 2023 alone, SC/ST/OBC enrolment exceeded that of the general category by 9.5 million students
- Meanwhile, the general category share fell from 57% in 2011 to about 39% in 2023, even after including Economically Weaker Section (EWS) students.

Bengaluru businessman robbed of over ₹1 cr cash

BENGALURU

The Hebbagodi police arrested a 39-year-old cloth shop owner, Srinivasa Murthy H.K., and his associate Arun Kumar B.N., for stealing ₹1.14 crore from a businessman's apartment in Bengaluru. The duo had befriended the victim and learned about the cash stored at his home. On November 9, while the family was away in Kolar, they broke in after days of reconnaissance. The accused avoided using phones and wore helmets to hide their identities. Police recovered the stolen cash from the shop and friends' houses. Officials said the money would be reported to the Income Tax Department for further investigation.

German delegation praises KSRTC's accessible transport

BENGALURU

A German delegation from the Federal Ministry for Economic Cooperation and Development, along with GIZ and embassy officials, visited KSRTC's Bengaluru office on December 2 to review inclusive mobility initiatives. The team experienced Dhwani Spandana–On-Board, an assistive audio-navigation system that improves bus access for visually impaired commuters. KSRTC Managing Director Akram Pasha highlighted the system's national award and its development by the Raised Lines Foundation, scaled with GIZ under the Green Urban Mobility Innovation project. Already operational on KSRTC and Mysuru buses, the system impressed the delegation. Director General Christine Toetzke praised KSRTC for pioneering innovative, user-friendly transport technologies in India.

Venugopal controls Cong, not Kharge: Chalavadi

Narayanaswamy criticized the Congress for ignoring state issues due to internal rivalries between the Chief Minister and Deputy Chief Minister

BENGALURU

Leader of the Opposition in the Legislative Council, Chalavadi Narayanaswamy, has claimed that Congress's real high command in Karnataka is KC Venugopal, not Mallikarjun Kharge.

Speaking about the recent meeting of Chief Minister Siddaramaiah and Venugopal in Bengaluru, Narayanaswamy said the state has been confused over Congress leadership, but now it is clear that Venugopal holds the power.

He criticized the Congress for ignoring state issues due to internal rivalries between the Chief Minister and Deputy Chief Minister. He said Venugopal is managing different groups within the party and deciding their survival, while the interests of farmers, Dalits, and North Karnataka are being neglected.

Narayanaswamy accused Congress leaders of forgetting the welfare of Dalits and the backward regions.

He highlighted that 31 bills are already pending, and 22 new bills are being added, questioning whether this session is for passing legislation or serving party interests. He also criticized the government for considering Bengaluru-related bills in Belgaum and demanded a special session to address the concerns of North Karnataka.

> Venugopal is managing different groups within the party and deciding their survival, while the interests of farmers, Dalits, and North Karnataka are being neglected.
>
> —Chalavadi Narayanaswamy, LoP in the Legislative Council

He pointed out that leaders of North Karnataka have failed to develop the region despite holding Chief Ministerial positions, leaving areas like Kalyana Karnataka and Kittur Karnataka backward. Narayanaswamy said the Congress focuses more on retaining power than addressing regional inequalities and welfare issues.

He also stressed the need for the party to prioritize state development over internal politics, warning that neglecting farmers and Dalits could have long-term consequences for the party's credibility in Karnataka.

Gandhi Bazaar footpath cleared of encroachments

BENGALURU

The Bengaluru Central Municipal Corporation carried out a major operation today to clear long-standing footpath encroachments in the Gandhi Bazaar area of Chikkapet division.

Commissioner Rajendra Cholan said the action was taken after several warnings were issued to street vendors who continued to occupy unauthorized spaces, creating difficulties for pedestrians.

Officials explained that around 120 street vendors had already been given proper locations to run their stalls. These designated spots were meant to help them continue their business without blocking public pathways. However, many vendors had expanded into additional areas beyond the allotted spaces, leading to congestion and safety concerns for people walking through the busy stretch.

As the vendors did not follow repeated instructions to vacate the extra spaces, the Corporation launched a clearance drive early this morning. A team led by Chikkapet Executive Engineer Pradeep Kumar removed the unauthorized structures and restored the footpath area. The operation involved two JCBs, seven tractors, three lorries and about 40 personnel. During the drive, five shops that had extended their business onto the footpath were also cleared.

Officials stated that such actions were necessary to ensure smooth movement for thousands of pedestrians who use the Gandhi Bazaar roads daily. They added that street vending can continue without disruption if vendors operate strictly within their assigned areas.

The Corporation has now warned that legal action will be taken against anyone who again encroaches on the footpaths or trades outside approved zones.

Assistant Executive Engineers Krishnakumar and Ramegowda, marshals and several staff members were present during the operation, ensuring that the clearance was carried out smoothly and safely for everyone involved.

Min reviews ongoing metro, road works

BENGALURU

The Bengaluru North City Corporation carried out a joint inspection on Wednesday after Revenue Minister Krishna Byre Gowda reviewed the ongoing metro and road works along the Outer Ring Road and Bellary Road.

The Minister visited key stretches from Nagawara Junction to Yelahanka and issued several important instructions to speed up the work and reduce traffic problems faced by the public.

At Nagawara Junction, he directed Metro officials to finish the pending work quickly. He asked them to clear extra materials and debris from the site and ensure that the service road is fit and safe for regular traffic. At Veerannapalya Junction, where large amounts of debris were found, he ordered immediate cleaning and instructed that barricades must not block the flow of vehicles.

Near Venkatam Cafe, the Minister noted that both sides of the Outer Ring Road had been closed for work. He instructed the officials to open at least one lane and maintain the stretch in good condition. At Esteem Mall on Bellary Road, he asked NHAI officials to create smooth entry and exit points for the service road and provide required space for bus bays on both sides.At Kodigehalli Junction, he expressed concern over the inconvenience caused to people since 2021 and directed officials to ensure smoother movement of vehicles. During the Hebbal Road inspection, he instructed the teams from NHAI, Metro and Uttara Nagara Corporation to maintain the road properly for traffic.The Minister also ordered an intensive cleanliness drive from Hebbal to Bagalur Cross, to be carried out jointly by the Uttara Nagar Palika, NHAI and Metro teams. The inspection was attended by senior officials, including Uttara Nagar Palika Commissioner Pommala Sunil Kumar, Metro Managing Director Ravi Shankar, BWSSB Chairman Ram Prasat Manohar and representatives from NHAI and BDA.

B'luru allotted 5,700 EV buses under FAME, PM e-Drive schemes: MP

BENGALURU

The Central Government has sanctioned 5,700 electric buses (EVs) for Bengaluru under the FAME and PM-Drive schemes, aiming to promote eco-friendly and sustainable city transport, said MP Tejaswi Surya. Out of these, 1,221 buses are currently operational in the city. Addressing the media here on Wednesday, Tejaswi expressed his satisfaction over the EV bus rollout, highlighting that Bengaluru is among the leading cities to receive such a fleet. Across India, 21,000 EV buses have been sanctioned under these schemes to modernize public transport and reduce carbon emissions.

Min complains of tech glitch

However, concerns about the technical performance of the buses have emerged with Karnataka Transport Minister Ramalinga Reddy stating about around 13,000 reported cases of breaking down of EV buses, primarily involving private operators handling maintenance under the GCC model. Reddy even claimed that a letter has been sent to Union Minister HD Kumaraswamy, seeking action to address battery recharge issues, driver training gaps, and maintenance problems.

Develop professional skills outside of academics to succeed: VC

BENGALURU

Bangalore University Vice-Chancellor Prof M Jayakar Shetty has called upon students to develop professional skills aligned with their degrees to succeed in jobs or businesses.

He was speaking at the 'Graduation Ceremony – 2025' of MTech and MCA students at the college hall here on Wednesday.

He emphasized the importance of applying one's academic knowledge in practical work. "It is possible to excel in any profession only when you learn skills related to your field. Your degree is the foundation, but your skills will build your career," he said. Highlighting the role of family support, he said, "Parents have trusted you with their dreams. They expect you to graduate and secure a high-level job. It is your responsibility to honor their hopes through dedication and hard work."

RV Engineering College, known for value-based education, offers students numerous opportunities for holistic personality development, the VC noted. He encouraged graduates to continue learning, exploring professional growth, and contributing to society.

The ceremony was attended by National Education Committee Trust chairman Dr MP Shyam, Principal Dr KN Subramanya, Vice-Principal Dr KS Geetha, Dr Radhakrishna, Placement Director Dr D Ranganath, along with faculty and staff. Students were congratulated for completing their programmes and reminded that their learning journey extends beyond graduation. Practical skills, discipline, and perseverance, he said, will be the keys to future success.

Agniveers graduate at Madras Engineer Group parade

BENGALURU

The Madras Engineer Group & Centre hosted the Passing Out Parade for the sixth batch of 788 Agniveers, marking the completion of their rigorous training and induction into the Indian Army. The iconic Drill Square came alive with ceremonial precision as the young soldiers marched to the beats of the military band, showcasing the high standards and discipline instilled by the Centre.

Brigadier Ajay Singh Thakur, Commandant of the Madras Engineer Group & Centre, reviewed the parade and praised the Agniveers for their professionalism and dedication. A key moment of the ceremony was the presentation of the 'Gaurav Padak', where parents proudly pinned the rank insignia of 'Thambi Sapper' on their sons, symbolizing their transformation from trainees to soldiers.

The Centre arranged special reception, stay, and transport facilities for families to ensure they could participate fully in the celebrations. The event concluded with veterans, senior officers, and guests interacting with families, sharing in the pride and joy of this significant milestone.

The Passing Out Parade was a celebration of courage, commitment, and the values upheld by the Madras Sappers and the Indian Army.

Stop selling non-Nandini brands or lose licence: KMF

BENGALURU : Karnataka Cooperative Milk Producers' Federation Limited (KMF) has issued strict orders to its Nandini booth owners, banning the sale of any products other than Nandini brand. The move comes after reports that several booths were selling snacks, water bottles, and other branded goods alongside Nandini milk, curd, and ghee. The KMF has warned that booths violating this directive risk license cancellation. In the first stage, notices will be issued to shopkeepers found selling non-Nandini products. KMF Managing Director Shivaswamy emphasized that the federation is committed to protecting the brand's integrity, which has earned national and international recognition. "Nandini ghee is even used in Tirupati laddus. Selling other brands dilutes the value of our products," he said. Some booth owners, who raised concerns about high rents and potential losses if restricted to only Nandini products, have agreed to comply following the notices. "We understand the directive and will stop selling other items from now on," said a local shopkeeper.

White-topping works gain pace across Bengaluru

BENGALURU

The Greater Bengaluru Authority (GBA) is accelerating white-topping works across the city, aiming to improve road quality and traffic flow, said B-SMILE Chief Engineer Dr Raghavendra Prasad.

Under the guidance of Chief Commissioner Maheshwar Rao and instructions from Deputy Chief Minister DK Shivakumar, ongoing projects are being closely monitored for timely completion.

White-topping works are planned for 161.78 km across 16 packages at an estimated cost of Rs 1,700 crore, including Rs 800 crore from state government grants and Rs 900 crore under Escrow funds. Currently, 104 roads covering 145.68 km across 14 packages are under progress at a cost of Rs 1,487 crore. Tenders are underway for 14 more roads covering 16.1 km.

Safety measures have been made mandatory during installation of water pipelines, stormwater drains, underground ducts, and other utilities in the work zones. White-topping is being implemented according to IRC:SP:76-2015 standards, ensuring long-lasting concrete roads, reduced maintenance, and smoother travel.

Women-headed AI CultureTech firm joins elite global cohort of innovators

BENGALURU

Culturelytics, the pioneering AI-driven CultureTech Company transforming how organisations measure and manage culture, has been selected by Forbes India and D Globalist as one of the Select 200 Companies with Global Business Potential for 2025.

This highly regarded cohort represents over 1,000 founders, including nearly 20% of India's unicorn leaders, and innovation-driven companies that have collectively raised more than USD 19 billion and expanded into 30+ countries. The selection places Culturelytics among a distinguished group of ventures positioned to scale globally and influence the next decade of organisational strategy.

Yeshasvini Ramaswamy, founder & CEO of Culturelytics, said, "Being part of the 'Select 200' reinforces a belief we held long before the world was ready: culture is a business technology. Culturelytics was built to decode culture with behavioural science and responsible AI, enabling leaders to treat culture with the same strategic rigour as financial and operational metrics. As workplaces grow more complex and globally interconnected, culture intelligence is becoming essential for CEOs — not optional. This recognition strengthens our resolve to take CultureTech from India to the world."

Smita Tharoor, co-founder of Culturelytics, said, "Culture will define the next era of leadership. Around the world, organisations are struggling with belonging, trust, inclusion, and cross-cultural cohesion. Culturelytics brings clarity and science to challenges that were once addressed only through intuition. Being recognised among global-first innovators signals how urgently leaders need this intelligence — and how relevant an India-born solution can be for the world."

CCB seizes ₹ 28 crore drugs before New Year

BENGALURU

Bengaluru's CCB police seized drugs worth Rs 28 crore, foiling a major supply plan for New Year celebrations. Two foreign nationals, Nancy from Tanzania and Emmanuel Arenji Idiko from Nigeria, were arrested. In two separate cases, 10 kg of MDMA valued at Rs 20 crore, hidden in tea powder packets, and 8 kg of hydro ganja worth Rs 8 crore, imported from abroad, were recovered. The accused targeted locals, students, and IT professionals for high-priced sales. Police investigations revealed the drugs were intended for New Year profit. The CCB, with the Narcotics Control Bureau, continues probing the network and other absconding accomplices.

Elderly man dies in KTM bike accident

BENGALURU

A 74-year-old man, Madhu from Manganahalli, died after being hit by a KTM bike while crossing a road in Nagarbhavi, Bengaluru, on Tuesday morning. The accident caused severe head injuries, and Madhu succumbed despite being admitted to a hospital. The bike rider, Srinivas, has been taken into custody and is being questioned by the Jnanabharathi Traffic Police. A case has been registered in connection with the incident. Authorities are investigating the circumstances of the collision, urging motorists and pedestrians to exercise caution to prevent such fatal accidents in the city.

Politics keep changing, leaders must accept reality: GP

He says he did not know what exactly the two leaders discussed during the breakfast meet, but added "everything is clear now and there is no problem"

BENGALURU

Home Minister G Parameshwara on Wednesday said the confusion surrounding the recent breakfast meeting between the Chief Minister and Deputy Chief Minister has now been resolved.

Speaking to reporters, he said he did not know what exactly the two leaders discussed during the meeting, but added that "everything is clear now and there is no problem".

Parameshwara said unnecessary confusion had been created earlier and hinted that the media may have contributed to it. "The government is united and working together. With the winter session now underway, the opposition parties are ready to take up many important issues and the government will work with them in a cooperative manner," he said.

When asked about the Chief Minister's comment that "politics is not permanent," Parameshwara said that everyone already knows this truth. He added that only the Chief Minister could explain why he made the remark, but said there was nothing unusual about it.

He emphasized that politics always changes and leaders must accept that reality.

He also said that he preferred not to comment much about the CM-DCM meeting, but repeated that all minor differences had been settled. He explained that the government's focus was now on the ongoing legislative session and addressing public concerns.

He dismissed suggestions of internal disagreements and said the government was functioning smoothly. "We thought everything was already clear. There is no problem among us.

Now whatever confusion was there has also been settled," he said, adding that the administration would continue to work with confidence and cooperation.

The Home Minister concluded that clarity had emerged after the meeting and that the government was prepared to move forward without further misunderstandings.

Politics never stays permanent: DK Suresh

Former MP DK Suresh said there is no need to give too much importance to Chief Minister Siddaramaiah's remark that "politics is not permanent." Speaking to reporters outside his Sadashivanagar residence, he said the CM's words were spoken casually in conversation and did not need any further analysis.

When asked about AICC General Secretary K.C. Venugopal's visit to Karnataka, Suresh said Venugopal was in the State only because he had a programme in Mangaluru. He added that Venugopal would return to Kerala soon due to the local body elections there. Commenting on reports that supporters in Mangaluru shouted "D.K., D.K." during Venugopal's visit, Suresh said some people raised slogans out of pride, but it did not create any pressure on anyone. Several ministers also reacted to the CM's statement that politics is not permanent. Home Minister G. Parameshwar, Industries Minister M.B. Patil and PWD Minister Satish Jarkiholi all agreed there was nothing unusual about the comment. Suresh said the breakfast meeting between the CM and Deputy CM should be asked about directly, as he did not know what was discussed. He added that the winter session has begun and important issues must be taken up, with the government working to gain the opposition's confidence.

Rape case: HC rejects Prajwal Revanna's bail plea yet again

BENGALURU

The High Court has given another major setback to former MP Prajwal Revanna, who is serving a life sentence in a rape case.

On Wednesday, the court dismissed his plea seeking suspension of the sentence and release on bail. His lawyer, Siddharth Luthra, argued that Prajwal would not escape if granted bail and would attend the hearings of the other two related cases. However, the court was not convinced and refused to grant relief.

Prajwal Revanna had earlier been convicted by the special court for public representatives for raping a domestic helper at K.R. Nagar. He was sentenced to life imprisonment after the court found strong evidence, including a video recovered from his mobile phone. The video reportedly showed him stripping the victim and sexually assaulting her. Forensic Science Laboratory tests later confirmed that he was the person seen in the video. The case began when the domestic helper accused Prajwal of rape. Fearing the crime would be exposed, nine people, including Revanna, Bhavani, and Satish Babu, allegedly kidnapped her and confined her in a farmhouse near Hunsur. Eight of the accused were arrested for the kidnapping. Bhavani Revanna, who had absconded earlier, later secured anticipatory bail. A Special Investigation Team rescued the victim and recorded her statement. This led to a chargesheet and further evidence collection. Another related controversy surfaced during the last Lok Sabha elections when pen drives containing obscene videos said to be linked to Prajwal were widely circulated in Hassan. This led to a separate complaint by a woman from Holenarasipur. Prajwal was arrested on May 31, 2024, following the new allegations, adding more pressure to the ongoing legal battle.

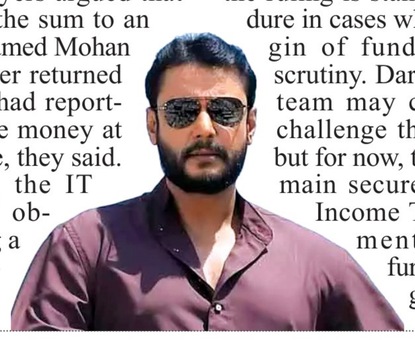
Court freezes Rs 82 lakh found at Darshan's residence

BENGALURU

In a major development, the 57th CCH Court has ordered that Rs 82 lakh found at Darshan's residence remain with the Income Tax Department while investigations continue. The funds were initially seized by Kamakshipalya police from Darshan's house and another property belonging to Pradosh, before being transferred to the IT Department. Darshan had requested the court to return the money, claiming it was legitimately his. His lawyers argued that he had lent the sum to an individual named Mohan Raj, who later returned it. Darshan had reportedly kept the money at his residence, they said.

However, the IT Department objected, citing a lack of proper documentation to prove the source of the funds. Authorities argued that the money could be linked to fraudulent activity and insisted that the investigation must proceed before any release. The court, after considering the arguments, sided with the IT Department and ruled that the Rs 82 lakh should not be returned to Darshan at this stage.

The decision highlights the importance of proper record-keeping and transparency when handling large sums of money. Legal experts said the ruling is standard procedure in cases where the origin of funds is under scrutiny. Darshan's legal team may continue to challenge the decision, but for now, the funds remain secured with the Income Tax Department pending further investigation.



'Integrated E-Khata system improves property records'

BENGALURU

The Greater Bengaluru Authority (GBA) has introduced a new integrated e-Khata system that links UPOR city survey maps and drone images with property records. Special Commissioner for Revenue and IT, Munish Moudgil, said this upgraded system will make property records clearer, more accurate, and easier for citizens to access.

The updated e-Khata now includes important details such as owner information, property photos, GPS location, digital maps, tax details, BESCOM meter numbers, and the document number used to acquire the property. These additions help create a complete digital profile for every property.

Fake exam news triggers panic among students

BENGALURU

Education Minister Madhu Bangarappa has strongly warned against the spread of false news claiming that the third exam for SSLC and PUC students has been cancelled. He clearly stated that the exam method remains the same as last year and that all three exams will be held without any change. His message was aimed at stopping confusion among students and parents, who had started worrying after seeing misleading reports in some media outlets.

Recently, a few platforms reported that the Education Department had not only reduced the passing marks from 35% to 33% but had also removed the third exam for SSLC and PUC students. Calling this completely untrue, the minister said these reports were irresponsible and harmful. He explained that the government has not changed the exam pattern and that students should prepare as usual. According to him, the three-exam model will continue this year too, just as it did last year. Madhu Bangarappa also criticized those who knowingly or unknowingly publish such fake news. He said that any information about exam changes must come directly from the Education Department, and not from random sources. He added that unnecessary rumours only create stress for lakhs of students who are already preparing for their board exams. If any change is ever planned, the department will discuss it openly and then communicate it officially, he said .

K'taka signs MoUs to boost tech innovation

BENGALURU

The Government of Karnataka signed two major Memoranda of Understanding (MoUs) on Wednesday, aimed at positioning the State as India's leading technology and innovation hub. The agreements focus on blockchain, cybersecurity, and energy-efficient infrastructure for AI and hyperscale workloads.

The first MoU with Coinbase India will strengthen Karnataka's position as an on-chain innovation capital and cybersecurity center. Under this partnership, the government and Coinbase will promote blockchain education, support early-stage start-ups, and raise public awareness. The initiative targets upskilling over 10,000 developers, launching more than 25 new blockchain start-ups, and training 1,000 individuals in cybersecurity fundamentals. Start-ups will be equipped with cyber-readiness toolkits, while public education programs will focus on safe digital practices.

The second MoU with Refroid Technologies introduces India's first Made-in-India liquid cooling solutions designed for AI, hyperscale, telco, edge, and enterprise environments.

KSRTC supports families, launches new software

BENGALURU

The Karnataka State Road Transport Corporation (KSRTC) on Wednesday provided major financial help to families of employees who passed away and also launched its new commercial management software, "e-Vaneejya," at its Central Office in Bengaluru.

Transport and Muzrai Minister Shri Ramalinga Reddy and KSRTC Vice Chairman Shri Mohammed Rizwan Nawab handed over the compensation cheques and introduced the new system.

Under the Saarige Suraksha Accident Insurance Scheme, the Corporation offers ₹1 crore to the family of any employee who dies in an accident, whether on or off duty. Cheques of ₹1 crore each were given to the families of three employees who died in off-duty accidents and due to electrocution. So far, KSRTC has distributed ₹42 crore to 42 such families. Under the Employees' Family Welfare Compensation Scheme, support is provided to families of employees who died from heart attack, cancer, stroke and other medical conditions. The compensation was earlier raised from ₹3 lakh to ₹10 lakh, and from 1 September 2025, it has been increased to ₹14 lakh. Today, ₹3.10 crore was given to the dependents of 31 employees at ₹10 lakh each, and ₹28 lakh to two dependents at ₹14 lakh each. With this, a total of ₹18.38 crore has been given to 183 families so far. The Minister expressed deep sorrow for the loss of lives and urged families to use the compensation wisely for children's education, home building and other important needs. He also warned them not to trust anyone blindly with their money. KSRTC also launched "e-Vaneejya," a software developed in-house to manage 1,847 commercial units across bus stations. Officials said it will reduce errors, save time and improve transparency.

Raj Bhavan renamed 'Lok Bhavan' in Karnataka

BENGALURU : The name of Karnataka's Raj Bhavan has now been officially changed. As per the Union Home Ministry's decision to rename Raj Bhavans across the country, the Governor's residence in Bengaluru will now be known as 'Lok Bhavan Karnataka'. This change takes effect immediately after receiving approval from Governor Thawar Chand Gehlot.A formal letter was sent by R. Prabhushankar, Special Secretary to the Governor, to the State Chief Secretary. The letter stated that all government departments must now use the new name in official documents, websites, boards, and communication. Similar changes have already taken place in West Bengal, Kerala, Tamil Nadu, Tripura, and Uttarakhand. The Home Ministry had written to all Governors and Lieutenant Governors on November 25, recommending the shift from "Raj Bhavan" to "Lok Bhavan." West Bengal was the first to adopt the new name, with both Kolkata and Darjeeling Raj Bhavans renamed. Karnataka has now joined this list with its updated identity. The aim behind this change is to move away from the British-era image of Raj Bhavans. These grand structures once symbolised power and royal authority.

NEXT-GEN DATA INFRA HUB

STATE CHARTS SUSTAINABLE PATH FOR DATA CENTERS

BENGALURU

Karnataka is set to become India's leading hub for sustainable and next-generation data infrastructure, said Rural Development, Panchayat Raj, IT and Biotechnology Minister Priyank Kharge.

Speaking at the 8th ASSOCHAM Smart Datacenters & Cloud Infrastructure Conclave 2025 in Bengaluru, he highlighted the State's vision to promote energy-secure, renewable-aligned, and water-secure data centers.

"Karnataka is the place to be for AI, analytics, data centers, cybersecurity, deep tech, and sustainable innovations," the Minister said. He emphasized that the State will go beyond compliance by reducing carbon footprints, adopting advanced cooling technologies, and preparing a skilled workforce for the growing data center ecosystem.

The event included the e-launch of NTT's new data center at Devanahalli, part of the company's $100-billion global operations. NTT already runs three Bengaluru centers with an investment of INR 1,700 crore and plans to invest an additional INR 2,400 crore in the new campus. The center will have a dedicated 220 kV power substation to ensure uninterrupted operations for major clients.

The conclave featured nine high-level B2B meetings with industry leaders and the release of an ASSOCHAM PwC Knowledge Paper titled "Heading Towards the Sustainable Data Hub Vision: Karnataka Leading the Way." The report highlighted Karnataka's robust digital ecosystem, connectivity, and policies as ideal for hyperscale data centers, cloud services, and AI platforms.

Man dies after accidental electric shock

Chitradurga

A tragic incident occurred in Kalkere village of Chitradurga taluk, where a 31-year-old man, Yogeesh, lost his life after coming in contact with an electric wire. According to reports, the accident took place while he was engaged in areca nut cutting work. In an unexpected turn, a live power line touched him, resulting in his immediate death. Following the incident, officers from the Bharamasagara police station rushed to the spot and conducted an inspection. The case falls under the jurisdiction of the Bharamasagara police.

Special incentive for minority B.Ed students; applications invited

Mangaluru

The Minority Welfare Department has invited applications from B.Ed students belonging to minority communities (Muslim, Christian, Jain, Sikh, Buddhist, and Parsi) enrolled in government, aided, or private colleges recognized by the National Council for Teacher Education for the 2025–26 academic year. Selected students will receive a special incentive of ₹25,000, directly credited to their bank accounts. Interested students can apply online via the Seva Sindhu portal (https://sevasindhu.karnataka.gov.in) with all required documents by December 31. For further details, students can visit the department's website or contact the Taluk Minority Information Centre. The helpline number is 8277799990.

Mandya receives ₹10,000 cr funding in 2.5 yrs: Minister

Over the past two and a half years, Mandya has received ₹10k cr for development

MANDYA

Minister for Agriculture, N. Chaluvarayaswamy, stated that over the past two and a half years, the state government has allocated more than ₹10,000 crore for the district's development. Speaking at a Janspandana program organized by the District Administration and District Panchayat, Chaluvarayaswamy highlighted the success of the Panch Guarantee Schemes, noting that while critics initially opposed them, these initiatives are now recognized at the national level.

Under the Panch Guarantee Schemes, each taluk receives an annual allocation of ₹250 crore, and the schemes will continue in the future, with commitments to maintain them in the next elections. Since April this year, 520 beneficiaries in Koppa Hobli have received ₹1.5 crore under agricultural support programs, while 49,330 farmers across Mandya have benefited from various schemes totaling ₹23.90 crore, with individual subsidies reaching up to ₹50 lakh.

The government has also implemented 1,300 new Pauti accounts, 5,800 old accounts, and 150 Podi registrations, along with scanning 18,310 revenue records and resolving 33,000 pending cases. Efforts include establishing the University of Agricultural Sciences in Mandya, introducing new rice varieties suitable for local conditions, and ensuring procurement of rice and ragi under the minimum support price scheme.

Infrastructure development has been significant, with ₹300–400 crore released for Koppa Hobli, a ₹45 lakh sanction for a new administrative office, and revival of the MySugar Sugar Factory with ₹50 crore funding. Additionally, over four lakh women have received financial support via DBT under schemes like Gruha Lakshmi and Shakti, free electricity under Gruha Jyothi, and funds under Annabhagya and Yuvanidhi.

The minister, along with other officials, inaugurated multiple development projects and distributed documents to beneficiaries, emphasizing the government's commitment to economic empowerment and comprehensive progress in Mandya.

Ex-minister KN Rajanna mocks breakfast meetings

KN Rajanna mocks CM–DyCM breakfast meetings, linking them to matchmaking rituals, says no major political changes expected unless high command intervenes

TUMAKURU

Former minister KN Rajanna took a jibe at the recent breakfast meetings between the Chief Minister and Deputy Chief Minister, comparing them to traditional matchmaking rituals. Speaking to the media in Tumakuru, he said that just like families first visit to see the bride and then the groom, these meetings too follow a similar pattern. Whatever is already happening will simply continue and nothing will reverse, he remarked.

Rajanna added that in villages, rituals like offering sheep or chicken are performed to restore peace, suggesting that similar symbolic gestures seem to be taking place in political circles as well. He reiterated that he does not expect any major changes unless directed by the high command. He also stated that the cabinet expansion is likely to take place only after the Belagavi session.

Responding to demands for a Dalit Chief Minister, Rajanna said that if Siddaramaiah were to be removed, then G. Parameshwara should naturally be considered for the role.

On the controversy around his son Rajendra meeting BJP ministers, Rajanna clarified that Rajendra is a senior director at KRIBHCO, which, along with IFFCO, is among the largest cooperative institutions in Asia. Such meetings with the Union Cooperation Ministry are routine and involve many directors, not just his son. He urged people not to attach unnecessary political meaning to it.

Commenting on Congress MLAs travelling to Delhi amid the leadership tussle, he said their efforts have neither succeeded nor failed, indicating the situation remains fluid.

Empowerment and legal support urged for differently-abled

MANGALURU

Entrepreneur Ganesh Shetty emphasized the importance of showing respect and compassion towards differently-abled individuals, urging society to enable them to excel and participate fully in mainstream activities. Speaking at the International Day of Persons with Disabilities event held at Kudmul Rangarav Purabhavan, organized jointly by the South Kanara District Administration, District Panchayat, Women and Child Development Department, Disabled and Senior Citizens Empowerment Department, Lions Club Gandhi Nagar, and special-focus schools, Shetty highlighted that differently-abled individuals should be recognized for their equal role in society.

He called on the community to nurture children with disabilities without developing patronizing attitudes and encouraged everyone to contribute positively to their growth. Shetty appreciated the dedication of organizations and individuals working for the welfare of differently-abled persons.

District Legal Services Authority advocate Manas Hegde stressed that differently-abled individuals must be aware of their rights and seek legal assistance if they face physical or mental harassment or discrimination.

During the event, students and individuals with disabilities who had achieved notable success were honored. The program was attended by dignitaries including Lions Club Gandhi Nagar President Manohar Ullal, District Public Relations Officer Rashmi K.M., entrepreneur Balakrishna Kottari, Ashok Devadiga, and former Mayor Mahabal Maral.

'Kala Jatha' launch promotes five guarantee schemes

CHITRADURGA

R. Shivanna, District Chairman of the Guarantee Scheme Implementation Authority, said the state government's Panch Guarantee Schemes have significantly supported the self-reliance and economic empowerment of the underprivileged.

The "Kala Jatha" mobile awareness campaign, organized by the Department of Publicity and Public Relations to promote these schemes, was flagged off at the District Commissioner's office on Wednesday. Shivanna emphasized that even the most marginalized members of society should live with dignity, and socially and economically vulnerable groups must be integrated into the mainstream. He highlighted that under the leadership of Chief Minister Siddaramaiah and Deputy Chief Minister D.K. Shivakumar, the government has implemented five key schemes—Annabhagya, Shakti, Grihalakshmi, Gruhajyoti, and Yuvanidhi. These programs have improved the lives of ordinary citizens and strengthened their financial stability, enabling better purchasing power and a more secure livelihood.

B.T. Kumaraswamy, Additional District Commissioner, urged effective organization of the "Kala Jatha" program to create widespread awareness and reach more people across the district. D.N. Mailarappa, Vice President of the District Guarantee Scheme Authority, stressed the need to educate rural communities about these schemes and suggested taking the campaign to village-level audiences. District Public Relations Officer Tukaram Rao explained that the special "Kala Jatha" vehicle, equipped with an LED screen, will travel to 20 selected villages, showcasing videos and street plays about the schemes. Led by artist Chandrakala, the street theatre team also performed awareness songs and skits to engage local residents.

MLA says all differences resolved after breakfast meeting

RAMANAGARA

Ramanagara MLA Iqbal Hussain said there are no longer any disagreements within the party, adding humorously that after sharing idli and country chicken, everything has settled down and everyone is at peace. Speaking to the media about the recent Chief Minister–Deputy Chief Minister breakfast meeting, he said the high command's decisions will be fully accepted by all leaders, and there is no confusion left on the issue. According to him, the meal symbolically showed that both vegetarian and non-vegetarian preferences are respected equally, indicating unity among leaders.

Responding to Chief Minister Siddaramaiah's recent remarks about power not being permanent, Hussain dismissed any suggestion of detachment or dissatisfaction. He said the CM's words reflect a simple truth—authority is never permanent for anyone. He explained that even former Chief Minister Kumaraswamy didn't have lasting power, and in the same way, neither he nor anyone else can claim permanence in politics. Hussain added that nothing in the world lasts forever, and everything eventually comes to an end, making the CM's comments meaningful and realistic.

He stressed that the Chief Minister's statements should be understood as thoughtful observations rather than signs of internal conflict. According to Hussain, the leadership is stable, harmony has been restored, and there is complete clarity within the party moving forward.

Society must offer opportunities to differently-abled: Judge

MANDYA

Senior civil judge and member-secretary of the Karnataka State Legal Services Authority, M. Anand, emphasized that society must offer differently-abled individuals not only compassion but also opportunities to showcase their talents across every field.

He spoke at the World Disabled Day 2025 program held at Dr. B.R. Ambedkar Bhavan in Mandya, organized jointly by the district administration, District Panchayat, Women and Child Development Department, Disabled and Senior Citizens Empowerment Department, Youth Empowerment and Sports Department, Rural Rehabilitation Program, and various NGOs working for differently-abled welfare.

M. Anand highlighted that the primary goal of the celebration is to protect the rights of differently-abled individuals, enhance their well-being, and integrate them fully into society. Every person has a responsibility to ensure equal opportunities for differently-abled people in education, employment, culture, and sports, helping them achieve respect and recognition.

He noted that the government has implemented numerous schemes and facilities for the differently-abled, which will succeed only when officers and institutions execute them impartially and effectively. The Indian Constitution guarantees every individual the right to live a dignified social, political, and economic life, and district-level awareness programs are conducted to ensure the differently-abled can access these rights.

Dr. H. Krishna, Chairman of the Karnataka State Food Commission, emphasized that differently-abled individuals possess unique strengths, and the government provides support to help them lead productive lives. Monthly maintenance allowances are available, ranging from ₹800 to ₹2,000 depending on disability levels. For students, benefits include scholarships, fee reimbursement, laptops, and assistive devices.

During the event, winners of sports and cultural competitions were awarded, assistive devices were distributed, and achievers were honored. Officials from the Indian Red Cross, district empowerment departments, and educational institutions for differently-abled students were present.

National Lok Adalat on Dec 13 in Mandya district

MANDYA

The Karnataka State Legal Services Authority has announced a National Lok Adalat on December 13, with all seven taluks in Mandya preparing to resolve pending cases. The Adalat will handle civil disputes, property and partition suits, recovery cases, motor accident claims, matrimonial issues, cheque bounce cases, compromiseable criminal matters, labor disputes, and various pre-litigation cases. Judges and senior lawyers will mediate to ensure amicable settlements, with no court fees and refunds for fees already paid.

Decisions are final and not open to appeal. Notices will be issued to parties, and settlements can be made directly or through lawyers. The state has also offered a 50% concession on traffic fines from 1991–92 to 2019–20, payable from November 21 to December 12, 2025.

Deputy Commissioner urges empowerment, not sympathy, for differently-abled

GADAG

Society must identify and encourage the hidden talents of differently-abled individuals, not merely show sympathy, said Deputy Commissioner C.N. Sridhar. He stressed the need to instill confidence and empower them to move forward independently.

He was speaking after inaugurating the World Disability Day 2025 programme at the District Administration Auditorium. The event was jointly organised by the District Administration, Zilla Panchayat, Departments of Disability and Senior Citizens Empowerment, Women and Child Development, District Legal Services Authority, Youth Empowerment and Sports, and several NGOs working in the disability sector. This year's theme focuses on building inclusive societies to achieve social progress.

Sridhar noted that many differently-abled individuals from Gadag district have excelled in various fields and even brought recognition at the international level. They deserve respect, and society must ensure equal opportunities for their growth. He applauded para-athletes who have proven themselves globally, demonstrating exceptional abilities.

District Legal Services Authority Member-Secretary C.S. Shivanagouda highlighted that World Disability Day is observed to create awareness about rights and ensure dignity for differently-abled persons. He urged people to prevent rights violations and avail support through the Disability Helpline 15100.

District Disability Welfare Officer K. Mahantesh informed that 21,414 UDID cards are being issued in the district. The government is also providing motorised vehicles to support self-reliance. He recalled how Pandit Puttaraj Gawai inspired visually impaired individuals to lead independent lives.

During the event, achievers with disabilities were honoured, and winners of sports and cultural competitions were awarded. Officials from various departments, NGOs, and disability welfare staff participated in the programme.

RAJYOTSAVA CELEBRATION CONTINUES

K'taka unification and renaming celebrated insightfully

CHITRADURGA

Dr. J. Kariyappa Malige, Principal of Chitradurga Government College of Arts (Autonomous) and member of Kuvempu Bhashabharati Authority, emphasized understanding the historical milestones of Karnataka's unification and renaming during Kannada Rajyotsava celebrations. Speaking at the event organized by the Kannada Studies Department of Davanagere University's Postgraduate Study Centre at G.R. Halli's Jnanagangotri auditorium, he noted that both unification and renaming hold deep cultural significance, symbolizing Kannada identity and the pride of Karnataka.

He recalled how freedom fighters and Kannada organizations played pivotal roles in these movements, highlighting Aluru Venkataraya's 1912 work Karnataka Gatha Vaibhava, which chronicled Karnataka's rich history—from the rule of Kannada kings, Vijayanagara's rise and fall, Maratha and Nizam periods, to British rule—while fostering awareness among the public. Dr. Kariyappa explained that India's independence and Karnataka's unification were results of collective struggles led by various cultural and political organizations, with North Karnataka contributing significantly.

He outlined that pre-independence Karnataka was divided into nearly 20 administrative units, with Kannada-speaking regions scattered across Mysore State, Hyderabad Nizam, Bombay Presidency, Madras Presidency, and Kodagu. Except for Mysore, most regions were under non-Kannada administrations. The post-unification consolidation on November 1, 1956, and the eventual renaming of Mysore State to Karnataka in 1973 under then-CM Devaraj Urs, came after years of sustained advocacy by writers, artists, traders, researchers, and the general public.

Dr. H.G. Vijaykumar, Professor of Kannada at the centre, stressed that Kannada Rajyotsava is more than a November celebration—it is a daily recognition of Karnataka's language, land, and culture.

The event was attended by faculty members, postgraduate students, and researchers, including Prof. Satyanarayana, Dr. Shantaraj, Dr. R. Rupesh Kumar, Dr. R. Shashidhar, Dr. Keertikumar, Dr. Rajendra Prasad, Dr. Sharan Raj, and Dr. T. Sundaram.

Candlelight rally marks World AIDS Day awareness

Chikkaballapur

A candlelight rally was organised in Chikkaballapur as part of World AIDS Day 2025. The event was jointly conducted by the District AIDS Prevention Unit, the District Health and Family Welfare Department, the District Legal Services Authority, and TI-NGO staff to raise awareness among the public. Students from various institutions participated in the rally, holding candles to symbolize solidarity and spreading awareness about HIV prevention. The programme highlighted the importance of eliminating stigma and educating communities about the disease. District Health Officer Dr. Lokesh Kumar flagged off the rally and encouraged the students to actively participate in awareness efforts. AIDS Prevention Programme Officer Dr. Usha also took part and guided the rally, ensuring smooth conduct of the event.

Telecom consumer outreach program on December 5

Chitradurga

The Telecom Regulatory Authority of India (TRAI) will organize a "Telecom Consumer Outreach" program on December 5 at 11 a.m. at the STEPI Auditorium of SJEM Technology Institute on National Highway-4, Chitradurga. Officials from the regional office of TRAI will address the event and explain consumers' rights and responsibilities as telecom subscribers. With Karnataka having over 70 million mobile subscribers and 5.88 million landline users, many are unaware of TRAI regulations. The program will cover grievance redressal, porting numbers to other providers, stopping unwanted commercial communications and calls, and rules regarding value-added services. Additionally, a session on cybercrime and online fraud will be conducted by experts from Karnataka Police's Cyber Crime Department, highlighting prevalent cyber scams. The public is invited to participate and learn about protecting their interests. For more information, contact K. Muralidhar at 09449005588.

Drug-free India and organ donation awareness

Chitradurga

Dr. B.C. Bhagavan, Vice-Chancellor of Rajiv Gandhi University of Health Sciences, stressed rising student substance abuse at the "Drug-Free India and Organ Donation Awareness Campaign and Rally" held at Onake Obavva Circle. Organized with district colleges, the event promoted healthy lifestyles and organ donation. Dr. Bhagavan urged medical students to avoid harmful habits and lead responsible lives. The university has held district awareness programs for three months across 1,500 campuses to create drug-free environments. He asked students to pledge against using or selling addictive substances and highlighted the urgent need for organ donation, noting the gap between 17,000 donated organs and over 300,000 patients awaiting transplants. Other dignitaries echoed the importance of healthcare and community responsibility.

MP Prabha Mallikarjun raises demand for BSNL tower installation

MP Dr. Prabha Mallikarjun urges immediate BSNL tower installation in villages and calls for pending employee pay revision

DAVANAGERE

During the Zero Hour in Parliament on Wednesday, MP Dr. Prabha Mallikarjun urged the Central Government to address the long-pending issue of installing BSNL mobile towers in several villages of Davanagere district. She highlighted that villages such as Haleshpur, Aralikatte, and Chikkakogalur in Channagiri taluk, Mussenahalu in Honnali taluk, and Konganahosur and Intalthanda in Harapanahalli taluk continue to struggle without basic mobile network coverage.

Dr. Mallikarjun reminded the House that the Digital India Mission aims to eliminate the digital divide and ensure seamless connectivity across the nation. However, residents of these villages are still deprived of essential mobile services. Despite repeatedly bringing the matter to the attention of authorities, no progress has been seen. She informed that four letters were sent to the Shivamogga Zonal Office, two to the Bellary Zonal Office, and additional letters to the Ministry of Communications on March 16 and September 20. Although the Ministry responded on October 17, there has been no concrete movement on the installation of BSNL towers.

Due to this lack of connectivity, students, farmers, and small businesses face significant disruptions in digital payments, online education, telemedicine, and emergency communication. This prolonged delay is widening the rural-urban digital gap and hampering access to essential services.

She urged the Communications Minister to direct BSNL to immediately install towers in the affected villages to ensure reliable and equitable digital access.

The MP also demanded that the Central Government remove the affordability clause related to the 3rd pay revision for BSNL employees, pending since 2017. She termed the clause unjust, noting that BSNL, being a service-oriented public sector undertaking, should not be evaluated solely on profit. She appealed for the revision to be granted by March 31, 2026.

Differently-abled inclusion and empowerment emphasized

CHITRADURGA

On the occasion of International Day of Persons with Disabilities, M.K. Tajpeer, Chairman of the Urban Development Authority, emphasized that providing respect and equal opportunities to differently-abled individuals is a collective responsibility. Speaking at the event held at Sri Maharshi Valmiki Bhavan near Madakari Circle, organized jointly by the district administration, District Panchayat, Women and Child Development Department, Disabled and Senior Citizens Empowerment Department, Youth Empowerment and Sports Department, School Education Department, Karnataka State Government Disabled Employees Association (District Unit), and various NGOs, Tajpeer highlighted the importance of societal inclusion.

He stressed that family members, teachers, and government officials should treat differently-abled individuals with dignity rather than pity, and ensure they receive equal opportunities. "Many differently-abled people possess exceptional talents, sometimes surpassing ordinary individuals. They have made remarkable contributions in education, sports, and other fields. Government departments must facilitate access to their homes and enable them to participate fully in society," he said.

On International Day of Persons with Disabilities, officials urged respect, equal opportunities, and empowerment for differently-abled individuals, honoring achievers and promoting social inclusion

Other speakers, including R. Shivanna, President of District Guarantee Scheme Implementation Authority, and Dr. R. Rangaswamy, Deputy Secretary of District Panchayat, highlighted the need for government support in empowering differently-abled individuals, promoting self-reliance, and integrating them into the mainstream. D.N. Mailarappa, Vice President, stressed reserving funds locally to ensure social, educational, and economic inclusion. District Disability Welfare Officer J. Vaishali noted that, as per the 2011 census, 35,971 differently-abled individuals reside in the district and require barrier-free facilities.

During the program, students with disabilities who excelled in the 2024–25 SSLC exams were honored, along with self-employed individuals and achievers in arts supported by the Lasika Foundation.

The event was attended by police officials, government officers, representatives of NGOs, and differently-abled participants, reflecting a unified commitment to inclusion, empowerment, and recognition of talents across sectors.

Dharmasthala Rural Development Project empowers women

RAMANAGARA

The Dharmasthala Rural Development Project is actively working to empower women by creating awareness and promoting financial literacy, said Shradha Amit, Chief Executive Officer of Kshema Vana. She was speaking after inaugurating a women's seminar organized by the Shree Kshetra Dharmasthala Rural Development Trust on Tuesday at the Manjunath Convention Hall in Bidadi. She noted that the organisation has been extending extensive support to help women achieve excellence across various sectors while prioritizing their empowerment.

Shradha highlighted that women must utilise the monthly information shared under the Women's Knowledge Development Programme and understand how visits to different departments can benefit them. By gaining this knowledge, they can shed misconceptions and move towards informed decision-making, ultimately becoming part of the social mainstream, she added.

Dr. Mamatha, head of SDM Institute of Ayurvedic Hospital, shared insights into the benefits of Ayurvedic medicines. Ramnagaram Women's Police Station CPI Shobha, who attended as chief guest, provided guidance on women's safety, legal protections, and issues arising from mobile phone misuse.

An exhibition featuring more than 17 stalls showcased products created by women, including self-employment items, nutritious food products, and other handmade goods. Winners of rangoli and bouquet competitions were felicitated, and women who excelled in dairy farming and self-employment were honoured. Cultural performances by members of the organisation entertained the audience.

Scholarship applications invited for performing arts students

CHIKKABALLAPUR

Applications have been invited for scholarships from eligible candidates aged 16 to 24 who are pursuing studies in Carnatic music, Hindustani music, dance, Sugama Sangeetha, and Gamaka. For the 2025–26 academic year, the Karnataka Sangeetha Nritya Academy will select students based on mobile video recordings submitted as part of the application process. Detailed information can be found on the Academy's Facebook page or downloaded from its official website. Completed applications must be submitted to the Academy along with required documents as per the prescribed format. Applicants must upload their course-related mobile video recordings to a pen drive and send it along with the application either by post or in person to the Karnataka Sangeetha Nritya Academy, Kannada Bhavana, Bengaluru.

Education builds self-respect, says UT Khader

KONAJE

Legislative Assembly Speaker U.T. Khader emphasized that education is the cornerstone for building a life of self-respect. Speaking at the inauguration of the Moule Ismail Haji Memorial Library and Canteen at the Government Primary School in Nadupadavu during the school's annual day celebrations, he urged parents to take responsibility for guiding their children toward excellence and to dedicate valuable time for their development.

Khader noted that the Nadupadavu school has gradually developed into a model institution, providing significant benefits to the children of the village while contributing to the overall progress of the community. He highlighted that schools play a vital role not just in academics but in shaping the character and confidence of students, making them capable citizens.

The event was presided over by School Management Board President C.M. Sharif Pattori, who addressed the gathering. Community leaders including Ibrahim Haji, Abdul Nasir K.K., Nazar Sha Pattori, Puttu Haji, Purushottam, Ummar Haji, Riyaz, Iqbal Balil, Javed, and others were present. Principal Prema announced the names of the award recipients.

Special recognition was given to outstanding alumni, including former student Foumya Abubakkar for her academic achievements. Retired education officer M.G. Manjunath, transferred teacher B. Shivaram Das, retired teachers Nag Prabha and Evjita Disouza, and former staff member Khatijamma were also honored for their contributions. Nadupadavu community leader N.S. Nasir welcomed the dignitaries, underscoring the collaborative effort behind the school's success and its positive impact on the village's educational landscape.

Woman succumbs to burns, 2 days after paramour's death

Jaipur

A woman, who was allegedly set on fire along with her partner by her family in Jaipur's Dudu area, has also succumbed to her burns. She was undergoing treatment at Jaipur's Sawai Man Singh (SMS) Hospital, where her boyfriend died on Monday night. The incident took place around 2 a.m. on November 28, when family members allegedly poured petrol on the couple and set them ablaze. The victims, identified as Kailash Gurjar (25) and Soni (30), residents of Barolav village in the Mokhampura area, were reportedly together on a farm platform when the attack occurred.

NCBC drops 35 Bengal Muslim castes from Central OBC list

Kolkata

The decision of the National Commission for Backward Classes (NCBC) to strike down 35 castes from West Bengal in the central Other Backward Classes list, all from the Muslim community, proves the appeasement politics pursued by the Mamata Banerjee-led Trinamool Congress government in the state, the Bharatiya Janata Party (BJP) said on Wednesday. The information on the NCBC's move came through a reply given by Union Minister of State for Social Justice and Empowerment B. L. Verma to an unstarred question raised by Jagannath Sarkar, the BJP's Lok Sabha member from Ranaghat in Nadia district of West Bengal.

Ex-Rajasthan min gets bail in ₹900 cr JJM scam

Major relief for senior Congress leader Mahesh Joshi, who has spent nearly seven months in Jaipur Central Jail.

JAIPUR

The Supreme Court on Wednesday granted bail to former Rajasthan Minister and senior Congress leader Mahesh Joshi, who has spent nearly seven months in Jaipur Central Jail in connection with the alleged ₹900-crore Jal Jeevan Mission (JJM) scam.

Joshi was arrested by the Enforcement Directorate (ED) on April 24 and has remained in custody since then, except for a brief four-day interim bail granted after the death of his wife on April 28.

A bench comprising Justice Dipankar Datta and Justice AG Masih delivered the bail order on December 3, nearly two weeks after reserving

judgment on November 21. Joshi approached the apex court after the Rajasthan High Court rejected his bail plea on August 26.

Appearing for Joshi, senior advocates Siddharth Luthra and Vivek Jain argued that despite being incarcerated for seven months, the trial has not yet commenced and the ED has failed to establish any conclusive evidence of bribery.

They highlighted the ED's claim that Joshi accepted ₹55 lakh as a bribe linked to a loan for his son's firm, noting that the amount was later returned. If this was a bribe, what was the reason for returning it? the counsel asked, asserting that the agency did not provide a satisfactory explanation.

Opposing the bail plea, the ED said Joshi's involvement was reflected in other FIRs filed by the Anti-Corruption Bureau (ACB). The agency argued that the ₹55 lakh transaction demonstrated his misconduct in the tendering process under the Jal Jeevan Mission and maintained that returning the money did not erase criminal intent. The ED further contended that Joshi could potentially influence witnesses if released.

Modi government lauded for extensive support to farmers

CHENNAI

Tamil Nadu BJP unit President Nainar Nagenthran has expressed pride and gratitude for the continued support extended by the Union Government under Prime Minister Narendra Modi to farmers across the state. In a statement, he described the Centre's efforts as both heartening and historic, highlighting the scale and impact of welfare schemes delivered over the past several years.

Nagenthran said that since the Modi government began its third term in 2019, Tamil Nadu's farmers have collectively received ₹12,764 crore under the PM-Kisan Samman Nidhi scheme. The initiative provides ₹6,000 annually as direct income support to every eligible farmer, a measure he said has become a crucial economic lifeline for countless agricultural households across the state.

'Since the Modi government began its third term in 2019, TN farmers have collectively received ₹12,764 crore under the PM-Kisan Samman Nidhi'

He also underscored major achievements under the Jal Jeevan Mission, noting that more than one crore rural households in Tamil Nadu have been provided free drinking water connections in the past six years. This milestone, he said, has quenched the thirst of millions and transformed rural living standards, marking a defining shift in the state's rural infrastructure.

Emphasising the Prime Minister's long-standing commitment to agriculture, Nagenthran said Narendra Modi believes that farming forms the true soul of any nation, sustaining livelihoods and feeding the world. He added that the Centre has taken every step necessary to strengthen the agricultural backbone of Tamil Nadu, from ensuring dignified income support to upgrading essential infrastructure in farming communities.

The BJP leader further praised the government's focus on long-term reforms beyond direct financial assistance. These include large-scale modernisation of irrigation networks, the promotion of micro-irrigation, increased procurement at Minimum Support Price (MSP), and expanded crop insurance coverage under the Pradhan Mantri Fasal Bima Yojana.

Torrential rains continue to batter coastal, interior TN

CHENNAI

Widespread rain continued to batter coastal Tamil Nadu and several interior districts on Wednesday as the depression over the Bay of Bengal further weakened into a well-marked low-pressure area.

For Chennai and its neighbouring districts Tiruvallur, Chengalpattu, and Kancheepuram -- the day brought yet another round of relentless showers. The downpour triggered sudden inundation across residential localities, arterial roads, and low-lying pockets, disrupting traffic and slowing down public movement.

Wednesday marked the third straight wet day of the week, which badly affected small traders and daily-wagers. Interior regions such as Villupuram, Cuddalore, and Tiruvannamalai also recorded repeated heavy spells with short intervals of relief as the weakened system advanced inland.

The financial probe agency is expected to scrutinise suspected illicit money trails, shell companies and bank transactions linked to the alleged scam

ED steps up probe into multi-crore Jharkhand liquor scam

RANCHI

The Enforcement Directorate (ED) has formally joined the probe into the multi-crore Jharkhand liquor scam, deepening what has become one of the most high-stakes corruption investigations in the state's recent history.

Acting on the FIR previously filed by the Jharkhand Anti-Corruption Bureau (ACB), the ED has registered an Enforcement Case Information Report (ECIR No. 10/2025) under the Prevention of Money Laundering Act (PMLA).

The agency has also secured approval from the special PMLA Court in Ranchi to interrogate and record statements of all accused persons who were arrested by the ACB earlier this year. With this development, the financial probe agency is expected to scrutinise suspected illicit

money trails, shell companies and bank transactions linked to the alleged scam.

The ACB had lodged its FIR in May after a preliminary investigation revealed deep-rooted irregularities in Jharkhand's liquor procurement, supply and distribution system. More than a dozen individuals, including senior bureaucrats, were named in the case. Among those arrested were IAS officer Vinay Kumar Chaubey, former IAS officer Amit Prakash, Jharkhand Administrative Service officer Gajendra Singh, businessman Siddharth Singhania from Chhattisgarh, and Vidhu Gupta, director of a private company. All accused were later granted bail after the ACB failed to file a charge sheet within the mandated timeframe.

So far, four IAS officers have already been questioned, with more expected to face scrutiny in the coming weeks.

Investigators allege that the state government had outsourced liquor shop operations and manpower supply to seven placement agencies that grossly violated tender norms. Several bank guarantees submitted during bidding were later found to be fake, raising suspicions of a coordinated conspiracy.

An internal audit conducted by the Jharkhand State Beverages Corporation Limited estimated that the state exchequer suffered losses amounting to ₹129.55 crore owing to widespread fraud, manipulation, and non-compliance in liquor operations.

IMF's grading of India's data overlooks key points: Report

NEW DELHI

The International Monetary Fund's (IMF) Article IV annual assessment of India's economic framework released last week states that the country's strong economic performance has benefitted from sound macroeconomic policies and earlier structural reforms. It further states that despite external headwinds, growth is expected to remain resilient, with inflation remaining subdued.

However, oddly enough at the same time, it has given India's national accounts statistics, which includes key figures such as Gross Domestic Product (GDP) and Gross Value Added (GVA), a C grade. Yet overall, across all data categories, India has received a sound B grade. There are four grades in total: A, B, C and D.

The IMF's criticism is focused on the methodology of India's statistical system, but does not question the authenticity of the data.

National accounts data are available at adequate frequency and timeliness and provide broadly adequate granularity. However, some methodological weaknesses somewhat hamper surveillance and warrant an overall sectoral rating for

the national accounts of C, the IMF stated.

It points to sizeable discrepancies between GDP estimates obtained from the production or income side and those obtained from the expenditure side, treating these gaps as evidence that household consumption and segments of the informal economy are not fully captured. It also highlights the limited use of seasonal adjustment and the scope for greater disaggregation of quarterly data.

For example, it highlighted an outdated base year of 2011-12 on which the data is based, and the use of wholesale price indices as data sources for deflators due to a lack of producer prices indices.

It points to sizeable discrepancies between GDP estimates obtained from the production or income side and those obtained from the expenditure side, treating these gaps as evidence that household consumption and segments of the informal economy are not fully captured.

Tech glitch grounds 33 IndiGo flights in Hyderabad in two days

HYDERABAD

Flight operations at Rajiv Gandhi International Airport in Hyderabad suffered disruptions as 33 flights of IndiGo have been cancelled, inconveniencing passengers.

At least 16 departures and 17 arrivals have been cancelled on Tuesday and Wednesday. According to airport sources, nine departures and five arrivals were cancelled.

Seven departures and 12 arrivals were also cancelled on December 3 (Wednesday). The cancellations on key domestic routes caused inconvenience to hundreds of passengers.

Sources attributed the cancellations to the airline's operational issues. No detailed explanation has been issued.

Arrivals from Visakhapatnam, Goa, Ahmedabad, Delhi, Bengaluru, Chennai, Madurai, Hubbali, Bhopal and Bhubaneswar were cancelled on Wednesday.

Departures to destinations like Delhi, Bengaluru, Bhubaneswar, Hubbali and Bhopal were also cancelled. Earlier on Tuesday, flights from Raipur, Coimbatore, Udaipur, Ahmedabad and Goa were cancelled. Similarly, departures to Ahmedabad, Coimbatore, Raipur, Udaipur, Goa, Calcutta and Visakhapatnam were also cancelled.

Nine flights to destinations like Delhi, Bengaluru, Calcutta, Goa, Mumbai and Ahmedabad were also delayed on Tuesday. The cancellations and delays led to several passengers getting stranded at the airport. Passengers travelling to key domestic destinations to take connecting international flights were the worst affected.

Ayappa devotees also suffered due to flight cancellations and delays. Devotees who had booked tickets for the Hyderabad-Kochi IndiGo flight were stranded due to the delay. One of the devotees said there was no response from the airline staff to their queries for a refund. The devotees said the delay has disrupted their plans as they had booked tickets for 'darshan' at Sabrimala.

Telangana CM meets PM, extends invitation for Global Summit

HYDERABAD

Telangana Chief Minister A Revanth Reddy on Wednesday met Prime Minister Narendra Modi in New Delhi to invite him to the 'Telangana Rising 2047 Global Summit' scheduled to be held in Hyderabad next week and to seeks the Centre's support for key infrastructure projects.

During the meeting, the CM extended a special invitation to the Prime Minister to attend the Global Summit to be held at the Bharat Future City, Hyderabad on December 8 and 9. He explained that, in alignment with the Union Government's 'Viksit Bharat 2047' goals, Telangana is moving ahead with a strong vision to achieve a $3-trillion economy by 2047. In line with these goals, Telangana has prepared the Telangana Rising 2047 Vision Document, designed to analyse sector-wise growth targets and future development plans.

He urged the PM to grant necessary approvals for Phase-II expansion of the Hyderabad Metro Rail. The state government has already submitted proposals to the Centre for a network expansion covering 162.5 km, with an estimated cost of ₹43,848 crore.

Bank's liability ends after payment to surviving account holder: J&K HC

SRINAGAR

The J&K and Ladakh High Court ruled on Wednesday that once a bank pays the balance of a joint account with 'either or survivor' mandate to the surviving account holder, the bank is fully discharged of its liability.

Justice Sanjay Dhar of the High Court said in his order, a bank is fully discharged of liability when it pays the balance of a joint account with an 'either or survivor' mandate to the surviving account holder.

Any subsequent dispute between the survivor and the deceased's legal heirs is a matter for them to resolve civilly, and the bank cannot be held criminally liable for honouring the 'either or survivor' clause.

The High Court further said that other court rulings, such as those from the Madras High Court, also support that the right to operate the account passes to the survivor upon the death of one account holder.

The order said that the bank's duty is to release funds

to the surviving account holder as per the either or survivor instruction.

Paying the surviving holder is a complete and valid discharge of the bank's obligation. Any dispute over the entitlement to the funds, after the survivor has received them, is a matter between the survivor and the legal heirs. This is a civil matter and not a basis for criminal proceedings against the bank. 'Either or survivor' mandate is a contract between the account holders and the bank. By signing for this clause, the account holders agree that the bank is entitled to pay the balance to whichever of the two is alive, the order mentioned. The principle that the right to operate the account passes to the survivor is supported by other High Court judgments in India.

RS ZERO HOUR

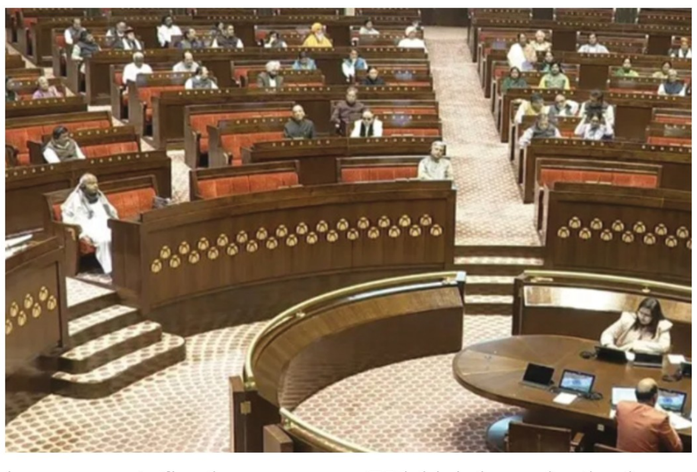
Cong MP wants deposit insurance hiked to ₹25 lakh

NEW DELHI

During Zero Hour in the Rajya Sabha on Wednesday, Congress MP Neeraj Dangi sharply criticised the current ₹5 lakh deposit insurance cover provided by the Deposit Insurance and Credit Guarantee Corporation (DICGC), calling it grossly inadequate in today's financial landscape.

He urged the government to immediately raise the limit to at least ₹25 lakh per depositor to safeguard millions of citizens—particularly senior citizens whose life savings often remain at risk.

Dangi highlighted that under existing norms, every category of bank deposit—savings, current, fixed, or recurring—is insured only up to ₹5 lakh if a commercial or cooperative bank collapses. The entire risk of amounts above



₹5 lakh is borne by the depositor alone, he said, adding that the current limit, revised in February 2020 following the Punjab and Maharashtra Co-operative Bank (PMC Bank) crisis, had previously remained at just ₹1 lakh for decades.

Quoting the DICGC's March 2024 report, he pointed out that out of 1,497 insured banks nationwide, only 43.8% of the total deposits are fully covered under the present limit. A shocking 56.2% of the total deposit amount remains completely uninsured, he said.

The bulk of this uninsured money, he warned, belongs to senior citizens who rely on bank deposits for financial security. If even one major urban cooperative or small finance bank fails, the hard-earned money of thousands of senior citizens could vanish overnight, Dangi cautioned.

He noted that in just the past year (2023–24), 431 urban cooperative banks have either collapsed or come under severe financial stress. Referring to the PMC Bank crisis, he said the DICGC had to disburse nearly ₹17,000 crore to affected depositors.

Dangi insisted that the deposit insurance premium, currently 0.12 per cent and paid by banks, must continue to be borne entirely by them without being transferred to customers. Raising the insurance limit, he argued, would restore greater trust in the banking system.

QUICK READ

Bihar govt tables Rs 91,000-cr supplementary budget

Patna

The third day of the Bihar Legislative Assembly session on Wednesday emerged as a vivid blend of political turbulence, constitutional propriety and parliamentary tradition. The state government reaffirmed its commitment to development by presenting a substantial second supplementary Budget of Rs 91,717.135 crore in both Houses of the Bihar legislature. Finance Minister Bijendra Prasad Yadav tabled the Budget in the Assembly, while in the Legislative Council, Minister-in-Charge Dilip Jaiswal took responsibility. The sizeable allocation is being viewed as a significant step towards accelerating welfare schemes, clearing pending infrastructure projects and strengthening financial discipline across key sectors.

Woman attacked amid chaos at MP fertiliser distribution centre

Khajuraho

A video surfaced on social media showing a Naib Tehsildar repeatedly slapping a young woman at a fertiliser distribution centre in Madhya Pradesh's Chhatarpur, sparking outrage and a controversy on Wednesday. Chhatarpur District Collector Parth Jaiswal on Wednesday issued a show-cause notice to Naib Tehsildar Ritu Singhai and sought an explanation in the matter within 24 hours. A short video clip of the incident went viral showing Naib Tehsildar Ritu Singhai repeatedly slapping a woman, who had come to receive a token for fertiliser. Ritu Singhai could also be heard shouting as the situation was out of control and people present there had to intervene to save the young woman from Ritu Singhai's wrath who even lunged to grab the girl's hair.

Job scam: 'Publish list of 'untainted' non-teaching staff'

Kolkata

The Calcutta High Court on Wednesday directed the West Bengal School Service Commission (WBSSC) to publish the list of untainted non-teaching staff in Group-C and Group-D categories in its 2016 panel, which was cancelled entirely following a Supreme Court order in April this year. Directing the WBSSC to publish the list by Thursday, a single-judge bench of Justice Amrita Sinha observed that the publication of the list of untainted non-teaching staff was necessary to provide room for them to participate in the fresh recruitment process and also enjoy the necessary age relaxation for the purpose.

Commitment to dignity, inclusion for persons with disabilities: PM

'Persons with disabilities have excelled across various sectors through their creativity and determination, significantly enriching India's progress'

NEW DELHI

On the occasion of the International Day of Persons with Disabilities on Wednesday, Prime Minister Narendra Modi reaffirmed the Centre's commitment to ensuring dignity, accessibility and opportunity for the nation's 'Divyang' population.

The day, observed annually on December 3, was proclaimed by the United Nations General Assembly in 1992 to promote understanding of disability issues and support the rights and well-being of persons with disabilities.

In a message shared on X, PM Modi said, On the International Day of Persons with Disabilities, we reiterate our commitment to always ensuring dignity, access and opportunity for our Divyang sisters and brothers. He added that persons with disabilities have excelled across various sectors through their creativity and determination, significantly enriching India's progress.

The Prime Minister also emphasised the government's continuous efforts toward disability welfare, noting advancements in legislation, accessible infrastructure, inclusive education and innovations in assistive technologies. We will continue to do more in the times to come, he said.

The global observance aims to raise awareness about disability inclusion and ensure full participation of persons with disabilities in political, social, economic and cultural spheres. It underscores the need to create societies where individuals with disabilities can contribute equally and meaningfully.

Meanwhile, President Droupadi Murmu presented the National Awards for the Empowerment of Persons with Disabilities for 2025 at a ceremony in New Delhi. Addressing the gathering, she stressed that equality for Divyang citizens is essential for genuine national progress. Divyangjan deserve equality. Ensuring their equal participation in the developmental journey of society and the country is the duty of all stakeholders, rather than a matter of charity, she said. According to the President, a society can be considered truly developed only when persons with disabilities participate on equal footing with all citizens.

Governor of Kerala Rajendra Vishwanath Arlekar and Chief Minister Pinarayi Vijayan receive President Droupadi Murmu on her arrival in Thiruvananthapuram on Wednesday

Prez joins historic Kerala Navy Day event with warships, aircraft display

THIRUVANANTHAPURAM

Thiruvananthapuram: President Droupadi Murmu, the Supreme Commander of the Indian Armed Forces, arrived in Kerala's capital on Wednesday to attend Navy Day celebrations being hosted in the state for the first time.

She was given a ceremonial reception at the airport, where Governor Rajendra V Arlekar, Chief Minister Pinarayi Vijayan and other senior dignitaries received her. Soon after, the President inspected a ceremonial guard of honour before proceeding to the city for the evening's events at Shankhumukham Beach, which has been transformed into a grand venue for the naval showcase.

Navy Day commemorates the Indian Navy's audacious and successful 1971 attack on Karachi harbour during the Indo-Pak war—an operation that stands as a defining moment in India's maritime history.

This year's celebrations promise to be among the most elaborate public demonstrations of naval capability. A total of 19 warships, a submarine, four fast-interceptor craft and 32 naval aircraft—including fighter jets and helicopters—are set to participate. The event is open to the public, offering citizens a rare opportunity to witness the Navy's prowess up close.

According to a Navy communique, the event will open with a dramatic salute by an MH-60R helicopter, performing a low-altitude nose dip as a tribute to President Murmu. This will be followed by a coordinated 'W' manoeuvre by frontline warships and banner formations by Chetak helicopters.

Special forces units will showcase 'visit, board, search and seizure' operations, while other highlights include a simulated missile launch from warships, a submarine sail-past, high-speed runs by interceptor craft, water-jet fast attack demonstrations and simulated MiG-29K launch and recovery operations from an aircraft carrier.

The aerial segment will feature combat manoeuvres by Hawk AJT aircraft, helicopter deck landings on moving ships, composite fly-pasts and anti-submarine rocket firing.

41 years of Bhopal Gas tragedy: Clash erupts during candle march

BHOPAL

A peaceful march to observe the 41st anniversary of the Bhopal Gas Tragedy turned into a clash over burning effigies of the ruling BJP in the state capital on Wednesday. Like every year, a group of survivors of the Bhopal Gas Tragedy was holding a candle march in the JP Nagar area, where the defunct Union Carbide factory is located, and most of the survivors reside.

As the march was underway, proceeding on a road outside the boundary wall of the Union Carbide plant, someone tried to burn the effigies of the BJP in a show of aggression against the government.

However, the act wasn't received well by the local BJP and some other right-wing activists, which eventually turned into a clash. Tension escalated when the protesters carried an effigy symbolising Union Carbide, Dow, and companies linked to the 1984 disaster.

BJP workers alleged that the effigy portrayed an RSS worker. They accused the organisers of hurting religious and organisational sentiments.

Gas victims' organisations rejected the allegations, stating the effigy represented the corporations responsible for the tragedy, not any group or organisation. They accused the BJP government of protecting Dow Chemical and obstructing efforts to hold the guilty companies accountable.

As arguments intensified, police stepped in and seized the effigy to prevent further escalation

Sresan Pharma cough syrup case: ED attaches properties worth Rs 2.04 cr

Continued from page 1

CHENNAI

The Directorate of Enforcement (ED), Chennai Zonal Office, has provisionally attached immovable properties worth Rs 2.04 crore belonging to G Ranganathan, proprietor of M/s Sresan Pharmaceutical Manufacturer, in connection with the money laundering probe into the adulterated cough syrup tragedy that led to the deaths of more than 20 children.

The attachment, made on December 2 under the Prevention of Money Laundering Act (PMLA), covers two residential flats in Kodambakkam, Chennai, owned by Ranganathan and his family members. The ED action originates from two FIRs that

triggered the money laundering investigation.

The Madhya Pradesh Police registered the first FIR against Ranganathan for manufacturing and selling the adulterated Coldrif cough syrup that caused multiple deaths.

The case was booked under Section 105 of the Bharatiya Nyaya Sanhita (corresponding to Section 304 IPC).

Investigations found that the cough syrup, manufactured at Sresan Pharma's Chennai unit, contained dangerously high concentrations of toxic chemicals - Diethylene Glycol (DEG) at 48.6 per cent w/v and Ethylene Glycol (EG) at 46.28 per cent w/v. These chemicals, when consumed, can cause acute renal failure, and laboratory results confirmed that they were present far beyond safe limits.

More than 20 children in Madhya Pradesh died after consuming the contaminated syrup, while several others suffered severe kidney damage. Investigators have concluded that negligent and adulterated manufacturing practices adopted by Sresan Pharma directly contributed to the poisoning.

The second FIR, registered by the Chennai Anti-Corruption Bureau (ACB), is against P.U. Karthigeyan, Director (incharge) and Joint Director of the Tamil Nadu Drugs Control Department, under Section 7 of the Prevention of Corruption (Amendment) Act, 2018.

Jharkhand HC rejects plea for CBI probe into JSSC-CGL paper leak

RANCHI

The Jharkhand High Court on Wednesday dismissed a petition seeking a CBI investigation into the alleged paper leak in the Jharkhand Staff Selection Commission's Combined Graduate Level (JSSC-CGL) examination. This has now cleared the way for the long-delayed results to be published.

A division bench of Chief Justice Tarlok Singh Chauhan and Justice Rajesh Shankar pronounced the verdict on Wednesday, nearly a month after they reserved judgment on November 3. The court directed the Commission to publish the pending results without further delay.

During previous hearings, Advocate General Rajiv Ranjan and Advocate Piyush Chitresh represented the state government, while Advocate Sanjay Piparwal appeared for the JSSC. Senior Supreme Court advocate Ajit Kumar Sinha and senior High Court advocate Ajit Kumar represented the petitioners.

The highly competitive JSSC-CGL examination -- conducted for recruitment to more than 2,000 state government posts -- was held on September 21 and 22, 2024, across 823 examination centres. Out of 3,04,769 candidates who appeared, the Commission shortlisted 2,145 candidates on December 5, 2024.

However, the declaration of results was halted after Rajesh Kumar and others filed a PIL demanding a CBI probe, alleging the exam had been compromised through leaked question papers. Taking note of the allegations, the HC imposed an interim stay on the release of results on December 17, 2024. After several hearings, the state government informed the bench that the CID had found no substantial evidence to support claims.

The government had earlier announced a longer session, from December 8 to 19, but now it will run till December 14.

Maha winter session cut short amid local body poll preparations

MUMBAI

Amid the ongoing local body election process, the winter session of the Maharashtra Legislature will now be held from December 8 to 14 in Nagpur.

The decision was finalised on Wednesday during meetings of the Business Advisory Committee (BAC) of both the state Assembly and the Legislative Council at Vidhan Bhavan.

The government had earlier announced a longer session, from December 8 to 19, when both Houses were prorogued following the conclusion of the monsoon session in July. However, the schedule has been shortened due to the second phase of the Nagar Parishad and Nagar Panchayat

polls slated for December 20, with counting scheduled for December 21.

The BAC meeting of the Assembly was chaired by Speaker Rahul Narwekar, while Council Chairman Ram Shinde presided over the upper house's committee discussions.

Opposition parties, including Shiv Sena (UBT), Congress and NCP (SP), strongly objected to the curtailed duration. They demanded that the winter session should run for at least three weeks to allow adequate discussion on key issues. The opposition also reiterated its demand for the immediate appointment of the Leaders of the Opposition in both Houses—posts that have remained vacant despite repeated calls.

Shiv Sena (UBT) legislator Anil Parab confirmed that he, along with Congress MLA Satej Patil, met Chief Minister Devendra Fadnavis to press for the appointments. Calling the delay unconstitutional, Parab said, It is unconstitutional to hold the winter session of the state legislature in the absence of the leaders of the opposition.

According to Parab, the Chief Minister assured them that the government would consider the matter positively, though no formal timeline has been announced.

WOMEN IN CAPFS

With 3,239 recruitments in 2024-25, Centre sets 5,171 target for next year

NEW DELHI

A total of 3,239 women were recruited across the four Central Armed Police Forces (CAPFs) in FY 2024-25. The CRPF recruited 294 women, BSF 1,680, ITBP 1,093, and SSB 172, the Centre stated in the Rajya Sabha on Wednesday.

The Central government has reaffirmed its commitment to enhancing women's participation across CAPFs, outlining recruitment figures, future targets, and ongoing measures to create safer and more gender-sensitive work environments for women personnel.

Notably, the government has set a more ambitious target of recruiting 5,171 women personnel in FY 2025-26, with the CRPF alone aiming

to induct 1,192 women constables next year. The BSF has set a target of 2,513, followed by ITBP with 1,375 and SSB with 91.

The details were shared in a written reply by Minister of State for Home Affairs Nityanand Rai in the Rajya Sabha while replying to a question from MP Kartikeya Sharma.

Responding to a question on whether the Centre plans to increase the strength of women personnel in the CRPF, BSF, ITBP and SSB with a view to creating dedicated women wings, MoS Rai recalled that the government had in January 2016 decided to reserve 33 per cent of constable posts for women in the CRPF, and 14-15 per cent at the constable level in BSF, SSB and ITBP.

Rai emphasised that the government is taking every step and effort to ensure safe working conditions and gender-sensitive operational protocols for women across forces.

They are being provided separate accommodation/barracks, rest room-cum-changing room and separate toilets. Creches and Day Care Centres have also been provided to take care of their children. There is also provision for women-centric medical support to address women-specific health issues, Women Help Desks and confidential complaint mechanisms to address grievances related to sexual harassment, the MoS noted in his reply.

GARC report recommends faster, transparent, tech-driven recruitment

AHMEDABAD

The Gujarat Administrative Reforms Commission (GARC) on Wednesday submitted its sixth report to Chief Minister Bhupendra Patel, outlining a series of youth-focused reforms aimed at strengthening their role as the driving force behind the state's 'Viksit Gujarat' mission.

The commission, headed by Principal Advisor Dr. Hasmukh Adhia, was constituted to streamline and modernise the administrative framework of the state government. With five reports already submitted earlier, the latest document marks another significant step toward administrative efficiency and youth empowerment. The sixth report presents nine key recommendations designed to make government recruitment faster, more transparent, technology-driven and aligned with the aspirations of young jobseekers.

Among the major proposals is the introduction of a fixed timeline for recruitment, ensuring that three-stage processes are completed within 9 to 12 months, and two-stage recruitments within 6 to 9 months. The commission also aims to further shorten these timelines over time to minimise delays and uncertainty for candidates. Another crucial recommendation is the implementation of Joint Recruitment and a Common Entrance Test (CET) for cadres requiring similar educational qualifications. By conducting joint prelims and subject-wise mains examinations, the state aims to reduce administrative burden.

S Korea's Defence chief urges military to defend constitutional values

Seoul
South Korea's Defence Minister Ahn Gyu-back on Wednesday presided over a meeting of key commanders and urged the military to strive to defend constitutional values, a year after the failed martial law bid that involved the former defence minister and a slew of military top brass. The meeting comes a day after Ahn issued an apology over the military's involvement in former President Yoon Suk Yeol's short-lived martial law bid on December 3 last year, when troops were deployed to the National Assembly to block lawmakers from voting down the decree.

Indian envoy hosts farewell reception for US Ambassador

Washington
Indian envoy to the US, Vinay Mohan Kwatra, hosted a farewell reception for US Ambassador to India Sergio Gor at India House and extended him wishes for his assignment in New Delhi. Chairman of the Senate Foreign Relations Committee and US Senator Jim Risch, and Chairman of the House Foreign Affairs Committee and US Representative Brian Mast were present on the occasion. In a post on X, Kwatra stated, Honoured to host a farewell reception for Ambassador Sergio Gor at India House tonight. Wished him well for his assignment in New Delhi.

Bangladesh ACC defends verdict against UK MP

Dhaka
Bangladesh's Anti-Corruption Commission (ACC) claimed that it had thoroughly reviewed all prosecution materials in the case against UK MP Tulip Siddiq, filed by the anti-graft body amid concerns raised in recent media reports about her trial and sentencing. The ACC's clarification came after a Dhaka court sentenced former Prime Minister Sheikh Hasina to five years in prison over irregularities in the allocation of plots under the Purbachal New Town project. Additionally, Hasina's sister, Sheikh Rehana, was handed a seven-year sentence, while her niece, Tulip Siddiq, received two years' imprisonment.

B'desh Primary Schools Shut Down as Teachers Launch Strike

Bangladesh's government primary school teachers launched a nationwide shutdown Wednesday demanding urgent action on pay and promotion reforms

DHAKA

Government primary schools across Bangladesh came to a standstill on Wednesday as teachers enforced a complete shutdown to press for a three-point charter of demands, according to local media reports. The move marks an escalation in ongoing protests that began last week, with educators declaring they will not return to classrooms or participate in examinations until concrete action is taken.

The strike is being led by the Primary Teachers' Demand Implementation Council, which announced the nationwide closure. The group said the decision was forced by the lack of progress despite repeated assurances from the Finance Ministry under the Muhammad Yunus-led interim government.

The Finance Ministry promised to meet our three-point demand, but no tangible action has been taken. As a result, all government primary schools will remain closed from Wednesday, and examinations will be boycotted until our demands are met, the council told The Dhaka Tribune.

Teachers say the shutdown reflects deep frustration over long-pending issues that directly affect their livelihoods and career growth. Their demands include upgrading the pay scale of assistant teachers to grade 10, resolving complexities related to higher grade benefits after 10 and 16 years of service, and ensuring 100 per cent departmental promotions from assistant teacher to head teacher.

In a social media post Wednesday morning, platform leader Mohammad Shamsuddin reiterated that the complete shutdown or locked-school programme will continue until the demands are implemented.

Teachers had already staged a three-day work stoppage last week, but union leaders say the interim government showed no visible progress throughout November. The situation intensified earlier this month after clashes with police reportedly left one teacher dead and several others injured.

NDRF Rescues 2 in SL as India Expands Humanitarian Efforts

India's NDRF teams evacuated two vulnerable Sri Lankan citizens amid severe flooding and destruction caused by Cyclone Ditwah

COLOMBO

India's ongoing humanitarian mission in Sri Lanka, Operation Sagar Bandhu, continued to save lives on Wednesday as National Disaster Response Force (NDRF) personnel evacuated a visually challenged senior citizen and an injured woman from Sedawatta and Nadeegama. The rescue was carried out in the aftermath of Cyclone Ditwah, which unleashed torrential rains, flash floods and landslides across the island nation, causing extensive destruction and loss of life.

In a statement posted on X, the Indian High Commission in Sri Lanka said, Under Operation Sagar Bandhu, NDRF teams continued life-saving efforts. NDRF helped a visually challenged senior citizen and an injured woman in Sedawatta and Nadeegama, both safely evacuated with onsite medical care.

India launched Operation Sagar Bandhu on November 28 to provide urgent search and rescue support as well as Humanitarian Assistance and Disaster Relief (HADR) to Sri Lanka. The operation comes in response to widespread flooding, severe infrastructural damage and disruptions triggered by Cyclone Ditwah.

As part of the mission, Indian Naval Ship (INS) Vikrant and INS Udaygiri have been deployed to Colombo, where they delivered emergency relief materials to affected communities. In addition, ship-borne helicopters have been conducting aerial reconnaissance of devastated areas to enhance search and rescue operations and assess the situation on the ground.

According to the Indian Navy, these airborne efforts have significantly boosted ongoing rescue missions. In the aftermath of Cyclone Ditwah, INS Vikrant and INS Udaygiri at Colombo delivered immediate assistance by providing relief provisions at short notice. Ship-borne helicopters were deployed for aerial recce of the affected areas and augmented ongoing Search and Rescue efforts, leading to successful rescue of Sri Lankan citizens, the Navy's spokesperson posted on X. With several regions still submerged and recovery operations underway, India's assistance continues to play a crucial role in supporting Sri Lanka during one of its most challenging natural disasters in recent years.

'Securing US consent for nuclear-powered subs major achievement'

SEOUL

South Korean President Lee Jae Myung said Wednesday that securing U.S. approval for nuclear-powered submarines was the most significant outcome of his two recent summit meetings with U.S. President Donald Trump. Speaking at a press conference with foreign media, Lee expressed hope that the submarines could be built in South Korea rather than in the United States, citing economic benefits and national security considerations.

"It was a highly beneficial outcome for us in terms of strategic flexibility and autonomy," Lee said. He added that although Trump suggested building the vessels at the Philadelphia shipyard, doing so would be "realistically very difficult" from Seoul's perspective.

Following their meeting in Gyeongju during the APEC forum, Trump said he had approved Seoul's request for nuclear-powered submarines and indicated they would be constructed at the Philadelphia shipyard operated by South Korea's Hanwha Ocean. Lee, however, said domestic production would be more desirable for both military and economic reasons.

He strongly rejected concerns that pursuing nuclear submarines would undermine the international non-proliferation regime, insisting that South Korea fully upholds its obligations. Nuclear submarines, he noted, do not carry detonators or nuclear weapons, and spent-fuel reprocessing does not equate to proliferation.

Trump to Announce Federal Reserve Chair Pick

NEW YORK

U.S. President Donald Trump said he plans to announce his nominee for the next Federal Reserve chair in early 2026. Speaking during a cabinet meeting at the White House, Trump briefly addressed questions about the upcoming leadership transition at the central bank, noting, "We'll be announcing somebody, probably early next year, for the new chairman of the Fed." Though he has hinted that he has already made his choice, no formal confirmation has been given.

National Economic Council Director Kevin Hassett is widely seen as the top contender to replace current Fed Chair Jerome Powell, whose term expires in May 2026. Hassett, a veteran economic adviser in Republican administrations, has played a key role in shaping the White House's fiscal and monetary strategies.

Since returning to office in January, Trump has frequently criticised Powell for allegedly being too slow to cut interest rates despite easing inflation and weakening growth. He has also raised the possibility of removing Powell—an action economists warn could erode the Fed's independence. Legal experts, however, argue that a president cannot dismiss a Fed chair over policy disagreements.

A man was killed and two others injured after a shooting in eastern Australia, prompting a major police search

1 Dead, 2 Hospitalised After Shooting in Eastern Australia

SYDNEY

A man died and two others were hospitalised after a shooting at a property in eastern Australia's New South Wales (NSW) on Wednesday afternoon. Police said emergency services were alerted to the incident in the small town of Eungella, over 640 km northeast of Sydney near the Queensland border at around 1:25 pm local time.

Responding officers were informed that two men, aged 38 and 41, had been shot by another man who fled the scene with a fourth individual. The 41-year-old victim received treatment from ambulance paramedics but died at the scene. The 38-year-old sustained a gunshot wound and sought medical attention at a nearby hospital.

Shortly after, emergency services were called to a second incident in the vicinity, where a 45-year-old man was struck by a car. He was transported to hospital under police guard. Authorities are attempting to determine how both hospitalised men were injured and whether the two incidents are connected.

NSW Police said they are working to locate a fourth man, believed to be 37 years old, who may have information crucial to the investigation. Officers are awaiting the opportunity to interview the injured men to clarify the sequence of events.

The Eungella shooting follows another fatal incident in the region late last month. On November 28, a man died after being shot multiple times on a street in Blacktown, located 30 kilometres west of central Sydney. Police were called around 11:50 am after reports of a public place shooting and found the victim with gunshot wounds to the neck, chest and leg. He was treated by paramedics but succumbed to his injuries.

AFGHAN REFUGEES REPATRIATED

Over 5,000 Afghan Refugees Forcibly Repatriated from Pak and Iran in a Single Day

KABUL

Over 5,000 Afghan refugees were forcibly repatriated from Pakistan and Iran in a single day, Afghanistan's Taliban authorities confirmed on Wednesday. According to local media reports, the mass return marks one of the largest single-day expulsions in recent months, reflecting escalating pressure on Afghan migrants living in neighbouring countries.

Taliban deputy spokesman Hamdullah Fitrat, sharing data from the High Commission for Addressing Migrants' Issues on X, said that 689 families — a total of 5,496 individuals returned to Afghanistan. The refugees entered the country through multiple border crossings, including Bahramcha in Helmand, Torkham in Nangarhar, Islam Qala in Herat, Pul-i-Abresham in Nimroz and Spin Boldak in Kandahar.

Fitrat added that 856 returning families, comprising 4,800 people, were relocated to their respective provinces, while 563 families received humanitarian support. Telecommunication companies also stepped in to provide assistance to the returnees.

The latest figures follow another wave of forced returns earlier in the week. Fitrat said that 3,164 Afghan refugees were expelled from Pakistan and Iran on Monday alone, bringing the two-day total to over 8,600.

The surge in repatriations comes against the backdrop of Pakistan's sweeping crackdown on undocumented Afghan migrants. In November, the United Nations High Commissioner for Refugees (UNHCR) reported that Pakistan detained a record number of Afghans in 2025, with the highest arrests recorded in Balochistan and Punjab.

According to UNHCR data cited by Khaama Press, Pakistani authorities detained 100,971 Afghans between January 1 and mid-November 2025 — a dramatic spike compared with about 9,000 arrests in 2024 and 26,000 in 2023. The report noted that 76 per cent of those detained were either undocumented migrants or Afghan Citizen Card holders, while 24 per cent possessed Proof of Registration (PoR) cards.

Humanitarian organisations have urged Pakistan to ensure that all returns are voluntary and carried out in line with international law. They warn that mass expulsions are fueling instability along Afghanistan's borders, where thousands of newly returned families face shortages of shelter, jobs and essential services.

IED blast kills 3 police personnel in Khyber Pakhtunkhwa

ISLAMABAD

Three police personnel, including an assistant sub-inspector, were killed on Wednesday when an improvised explosive device targeted a police vehicle in the Paniyala area of Dera Ismail Khan, Khyber Pakhtunkhwa. The victims were ASI Gul Alam, Constable Rafiq and driver Sakhi Jan, while another constable survived unhurt. Security forces cordoned off the area and launched a search operation. In a separate attack, the convoy of North Waziristan Assistant Commissioner Shah Wali Khan was ambushed on the Bannu–Miranshah Road near Masoomabad Mamandkhel. Khan and three others died, while three members of his security team were injured. Pakistan has seen rising militancy since the TTP ended its ceasefire in 2022.

QUICK READ

Vishal Fabrics wins Rs 100 crore export deal

New Delhi

Vishal Fabrics has secured a major export order worth Rs 100 crore for supplying premium denim fabric to six countries, including South Africa and Nigeria. The Ahmedabad-based company received the order from Kiran Enterprises, with shipments scheduled to begin on January 15, 2026. The deal covers a wide range of high-quality denim to be delivered to key markets such as Nigeria, Egypt, South Africa, Turkey, Morocco, and Lesotho. Company officials said the partnership will strengthen its global presence and boost India's textile exports. Vishal Fabrics aims to meet rising global demand with upgraded production capacity.

Imported car sales surge in South Korea

Seoul

Sales of imported cars in South Korea rose 23% in November, driven by strong demand for Tesla and German brands, according to KAIDA data. New registrations reached 29,357 units, up from 23,784 last year. Tesla led the market, with Model Y variants topping the sales chart, and its overall sales more than doubling to 7,632 units. Hybrids made up 51% of sales, followed by EVs at 37%. From January to November, imported car sales grew 16.3% to 278,769 units. Meanwhile, regulators criticised e-commerce giant Coupang for failing to properly notify customers of a major data leak.

New labour codes promise fair, inclusive workforce: Mandaviya

Mandaviya noted India's social protection gains, with 64% covered, and urged structured skill mapping for rising global demand

NEW DELHI

The Union Labour and Employment Minister Mansukh Mandaviya said the new Labour Codes, expected to be notified soon, will help build a fair, strong and more inclusive workforce across the country. Speaking at a CII event on labour reforms for Viksit Bharat, he said the government has begun the process of enforcing the rules and will publish draft rules for all four Labour Codes shortly.

The government recently notified the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020. Mandaviya said the working class is the backbone of the nation, and the new codes aim to strengthen their welfare and social security.

He explained that the reforms are not just about merging old labour laws but about giving dignity, respect and better protection to workers. The new system includes annual health check-ups, stronger safety rules and ensures that workers who have completed one year of service are eligible for gratuity. He added that gig workers and platform workers have also been brought under the social security net.

Mandaviya said India has made strong progress in social protection. As per the ILO, around 64% of citizens now receive at least one form of social security. He highlighted the growing demand for skilled Indian workers abroad and stressed the need to map and develop skills in a structured way.

CII President Rajiv Memani welcomed the reforms, saying the new Labour Codes will boost investment, ease of doing business and India's global competitiveness.

INDIA ADVANCES SMR DEVPT WITH NEW REACTOR DESIGNS

Jitendra Singh said India and Russia's Rosatom discussed expanding nuclear cooperation, including large and small plants, fuel-cycle work, equipment manufacturing, and exploring Russian-designed SMRs for deployment

NEW DELHI

The government told Parliament that the Bhabha Atomic Research Centre (BARC) has begun designing and developing new small modular reactors (SMRs). These include the 200 MWe Bharat Small Modular Reactor (BSMR-200), the 55 MWe SMR-55 and a small high-temperature gas-cooled reactor of up to 5 MWth meant for hydrogen production.

Union Minister Jitendra Singh said the first units will be built at Department of Atomic Energy (DAE) sites for technology demonstration. Once the projects are approved, the reactors are expected to be completed in about 60 to 72 months.

He also informed that India and Russia's Rosatom recently held discussions to strengthen cooperation in nuclear energy. The talks covered the development of both large and small nuclear plants, nuclear fuel-cycle cooperation and options to manufacture equipment within India. One of the new ideas discussed was building Russian-designed SMRs in the country.

On Bharat Small Reactors for industrial use, the minister said NPCIL issued a Request for Proposal (RFP) on December 31, 2024. A pre-proposal meeting was held in February 2025 to answer industry queries. All clarifications have been posted on the NPCIL website, and the RFP deadline has been extended to March 31, 2026.

He added that the draft Atomic Energy Bill 2025 is in the final stages of preparation, with suggestions from ministries being incorporated and legal review underway.

The Budget 2025–26 announcement for the Nuclear Energy Mission aims to develop and deploy five indigenous SMRs by 2033, with a total outlay of ₹20,000 crore.

The rupee's recent slide isn't harmful, the CEA said, expecting recovery next year as global conditions stabilize ahead

Rupee decline seen as manageable by top economist Nageswaran

NEW DELHI

India's Chief Economic Advisor V. Anantha Nageswaran said there is no major worry despite the rupee falling past 90 against the US dollar. Speaking at a business summit, he said the currency's drop has not badly affected inflation or exports. He added that he is not losing sleep over the situation, as the economy has not shown signs of stress from the recent depreciation.

The rupee has weakened about four to five per cent since April because of a strong US dollar, mixed foreign investments, and steady demand from importers. On Wednesday, it opened at a new low due to continued equity outflows and uncertainty surrounding India-US trade talks. Even so, the Chief Economic Advisor said the timing of this fall is not harmful. He noted that if the currency needs to weaken, this period is better than others. He also expects the rupee to recover next year as global financial conditions become more stable.

The Reserve Bank of India has allowed the rupee to move with market forces and steps in only to prevent sharp swings. The central bank does not follow a fixed exchange rate. The Monetary Policy Committee, meeting ahead of its rate decision on December 5, is expected to keep its main focus on inflation. It has also stressed the importance of a flexible currency to help absorb global shocks.

Experts say the rupee's fall is similar to the trend seen in other Asian currencies facing pressure from high US interest rates and cautious global investors. India's steady growth outlook has helped limit the fall compared to some neighbouring countries. Nageswaran also joined a session on building a stronger economic base, where speakers discussed fiscal discipline, more privatisation, and better statistical systems. They explained how these steps can help the country handle global challenges and support long-term growth.

Unit-2 of Subansiri hydro proj to begin this month

NEW DELHI

NHPC announced that the 250 MW Unit-2 of the Subansiri Lower hydro project will begin commercial power supply this month. The state-run hydropower company confirmed in a regulatory filing that the unit was successfully test-synchronised with the national grid on December 2. The project, with a total planned capacity of 2,000 MW, is one of India's major hydro developments. NHPC stated that the Commercial Operation Date for Unit-2 is expected within December 2025. The milestone marks another step toward boosting clean energy generation and strengthening the country's power supply.

Rising incomes make homes more affordable: Colliers India

NEW DELHI

A new report shows that rising incomes in India have made buying a home far more affordable over the last fifteen years. According to data compiled by Colliers India, the country's price-to-income ratio has fallen sharply—from 88.5 in 2010 to 45.3 in 2025. This means that even though property prices have grown steadily, people's incomes have grown much faster.

The report says that average incomes have increased more than four times, rising about 10 percent each year. In contrast, housing prices have climbed at a slower rate of 5 to 7 percent annually. This widening gap has made it easier for families to purchase homes across major cities.

'Rapid AI adoption in India exposes gaps in governance'

NEW DELHI

India's companies are rapidly expanding their use of Artificial Intelligence, driven by global competition and fast improvements in generative AI. A new report by Alvarez & Marsal (A&M) reveals that AI is now being used in customer service, daily operations, and even critical business decisions across many sectors. However, the study warns that while growth is strong, proper oversight is falling behind.

According to the report, only 15 percent of organisations have adopted AI across their entire business. Most companies have created basic rules or acceptable-use guidelines, but deeper governance remains weak. Only 19 percent have completed detailed risk assessments, and 81 percent lack full visibility into how their AI systems are monitored or controlled.

A&M said many AI projects are still developed in separate teams, causing uneven standards and unclear accountability, especially when both in-house and external models are used. The firm stressed the need for integrated frameworks that ensure transparency, clear responsibilities, and strong oversight. Dhruv Phophalia, Managing Director at A&M, said India's AI potential is huge, but long-term success will depend on how well companies secure and govern their systems. Early investment in strong foundations, he said, will help organisations unlock the full economic value of AI.

The report also highlighted gaps in responsible AI practices.

IMF praises India's growth but flags data methodology concerns

NEW DELHI

A recent assessment by the International Monetary Fund (IMF) has praised India's strong economic performance, crediting steady macroeconomic policies and earlier reforms for supporting growth. The report says India's economy is expected to stay resilient even with global challenges, and inflation is likely to remain under control. However, the IMF has given a C grade to India's national accounts statistics, which include major figures such as GDP and GVA. Overall, India received a B grade across all data categories.

The IMF says its concern is linked to the methods used in India's statistical system, though it does not question the accuracy of the data itself. It notes differences between GDP numbers calculated from production and income compared to those calculated from expenditure. The IMF believes these gaps suggest parts of household consumption and the informal sector may not be fully captured. It also mentions limited use of seasonal adjustments, limited detail in quarterly data, and dependence on an "outdated" base year of 2011–12.

However, an article in Saviours magazine argues that the IMF has overlooked important facts. India's public finance and accounting systems are examined by the Comptroller and Auditor General (CAG), an independent constitutional authority. CAG reports are submitted to Parliament and state legislatures, where committees from all parties review them. Government borrowing is handled through the Reserve Bank of India under clear rule-based limits, and various budget documents and audit reports are cross-checked to ensure accuracy.

The article also notes that India's tax collections are tracked through advanced digital systems, and corporate accounts undergo strict audits. It stresses that India's informal economy is no longer a statistical blind spot, as increasing formalisation has linked it more closely with tax and banking networks.

Manufacturing sector to drive 46% of India's industrial leasing by 2027

NEW DELHI

India's manufacturing sector is rapidly reshaping the country's industrial and logistics market, with a new report showing that manufacturing leasing is set to take a 46 per cent share of total industrial and warehousing space by 2027. A JLL study reveals that leasing activity in the top eight cities is expected to reach 33.7 million square feet by 2027, rising sharply from recent years and signalling the sector's growing strength.

According to the report, manufacturing leasing touched 22.1 million square feet in 2024, and overall demand for such spaces is likely to climb to 34 million square feet by 2027. This steady rise shows how strongly the manufacturing sector is shaping real estate decisions and long-term planning across major industries.

The report also highlights a major shift toward Grade A industrial spaces. Demand for these high-quality buildings increased from 70 per cent in 2019 to 82 per cent in 2024, and further rose to 87 per cent by the third quarter of 2025 in the top eight cities. These facilities are increasingly preferred because they support automation, meet advanced infrastructure needs, and offer better safety and sustainability features.

Industry expert Yogesh Shevade from JLL said the seven-fold jump in leasing between 2020 and 2024 clearly shows how manufacturers are now choosing leased land and modern buildings to match new production needs. Sectors such as electronics, auto components, engineering, and white goods are driving this shift, especially as companies demand stricter hygiene standards, greener buildings, and more advanced safety systems.

Among the major cities, Pune and Chennai lead manufacturing leasing activity, together accounting for 75 per cent of the total demand as of the third quarter of 2025. Other cities like Bengaluru, Mumbai, and Delhi-NCR are also seeing fast growth, further boosting the country's overall industrial leasing momentum.

BSNL expands 4G network with future-ready plan

NEW DELHI

BSNL has installed 97,068 new 4G sites across India, with 93,511 already active as of October 31, the government informed Parliament. These sites use Indian-made technology and can be upgraded to 5G, supporting the 'Atmanirbhar Bharat' push for self-reliance. The supply of 4G equipment began in September 2023 after BSNL placed a national-level purchase order.

Minister of State for Communications and Rural Development, Dr. Pemmasani Chandra Sekhar, said the company is also working on several government-backed projects, such as the 4G Saturation Scheme, Border Out Post upgrades, Left-Wing Extremism Phase-I improvements, and more. BSNL plans to convert all its 4G towers to 5G within the next eight months, ensuring faster and more reliable connectivity. To strengthen service quality, BSNL is replacing old batteries at tower sites and using diesel generators in areas with power issues or high revenue demand. Many new tower sites also use solar energy as the main power source under the Digital Bharat Nidhi programme. BSNL has shown steady financial growth in the first half of FY26, earning Rs 11,134 crore. The company met 93 per cent of its revenue goal for the second quarter by generating Rs 5,347 crore. For the full year, BSNL aims to reach Rs 27,500 crore in revenue, higher than last year's target of Rs 25,000 crore.

SUMMIT INVITATION EXTENDED

T'gana CM invites PM for 'Telangana Rising 2047'

HYDERABAD

Telangana Chief Minister A. Revanth Reddy met Prime Minister Narendra Modi in New Delhi on Wednesday to invite him to the upcoming Telangana Rising 2047 Global Summit. The summit will take place on December 8 and 9 at Bharat Future City in Hyderabad. Deputy Chief Minister Mallu Bhatti Vikramarka also joined the meeting, which was held on the Parliament premises.

The Chief Minister gave the Prime Minister a specially designed invitation printed by the state government. He explained that Telangana's long-term goal matches the Union Government's Viksit Bharat 2047 vision. Telangana aims to become a $3-trillion economy by 2047, and to support this goal, the government has created the Telangana Rising 2047 Vision Document. It studies growth needs for different sectors and outlines development plans for the coming decades. He added that the document was prepared with inputs from NITI Aayog and experts, and will be officially released during the summit.

Revanth Reddy asked the Prime Minister for full support for the state's development projects. He requested approval for Phase-II expansion of the Hyderabad Metro Rail, covering 162.5 km at a projected cost of ₹43,848 crore. The state wants the project to be taken up as a Joint Venture between the Centre and the State.

He also sought Cabinet approval and financial sanction for the northern section of the Hyderabad Regional Ring Road (RRR) and asked for permission to begin work on the southern section. The Chief Minister urged the Centre to take up the proposed Regional Ring Rail project as well.

Further, he requested special attention for major road corridors, including the 12-lane Greenfield Expressway from Hyderabad to Bandar Port via Amaravati and the Hyderabad–Bengaluru High-Speed Corridor. He also asked for approval to build a four-lane elevated road from Munnanur to Srisailam to improve travel to the famous pilgrimage centre.

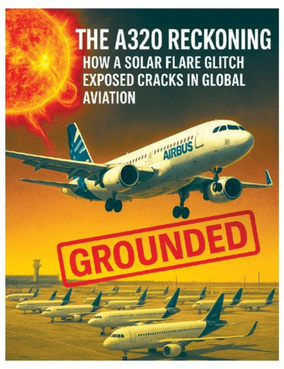
THE A320 RECKONING:

How a Solar Flare Glitch Exposed Cracks in Global Aviation

In the high-stakes world of commercial aviation, where split-second decisions mean the difference between routine takeoffs and catastrophic failures, few events can ripple across continents like a single line of faulty code.

On November 28, 2025, Europe's Airbus issued a sweeping directive that grounded thousands of its flagship A320-family jets worldwide—a precautionary recall affecting more than half the global fleet of these workhorse aircraft.

Triggered by a bizarre mid-air incident months earlier, the order mandated immediate software rollbacks and, in some cases, hardware swaps to shield flight controls from the sun's unpredictable fury. What began as a technical hiccup has snowballed into a multifaceted crisis, laying bare vulnerabilities in aircraft safety oversight, airline operations, and the intricate web of global supply chains. As fleets sit idle and passengers scramble, the fallout threatens holiday travel, airline bottom lines, and even the long-term faith in one of aviation's most ubiquitous machines. The spark ignited on October 30, 2025, aboard JetBlue Flight 1230, an A320 en route from Cancun, Mexico, to Newark, New Jersey. Cruising at 32,000 feet, the plane suddenly nosedived without pilot input, plummeting 1,500 feet in seconds and injuring 15 passengers—some hurled against overhead bins, others strapped in but battered by the chaos. The crew wrestled the jet back to stability and diverted to Tampa, Florida, for an emergency landing.



Initial investigations pointed to an anomaly in the Elevator Aileron Computer (ELAC), the digital brain translating pilot commands to the aircraft's elevators and ailerons for pitch and roll control. Deeper analysis revealed a chilling culprit: intense solar radiation, from a coronal mass ejection, had corrupted critical data in the ELAC's software during a routine system switchover.

This "uncommanded pitch-down event," as regulators termed it, exposed a flaw in the latest software version (L104), rendering it vulnerable to cosmic interference—a risk Airbus hadn't fully anticipated in its fly-by-wire pioneer, the A320, first flown in 1987. Airbus's response was swift and unprecedented. In a bulletin to over 350 operators, the company identified roughly 6,000 jets—out of 11,300 in service—needing fixes before their next flight.

For most (about two-thirds), the remedy was a simple rollback to a 2022 software iteration, taking 30 to 120 minutes per plane. But for around 900 older models, hardware replacement was required, potentially sidelining them for weeks amid global parts shortages.

The European Union Aviation Safety Agency (EASA) formalized this with an Emergency Airworthiness Directive, echoed by counterparts like the U.S. Federal Aviation Administration (FAA) and India's Directorate General of Civil Aviation (DGCA). "Safety is paramount," EASA declared, acknowledging the "unfortunate disruption" but prioritizing prevention of structural overload or worse.

Airlines Scramble for Alternatives as A320 Recall Grounds Fleets Worldwide

The directive landed like a thunderclap during peak travel season, catching airlines mid-stride. In the U.S., where Thanksgiving weekend saw 7 million flyers airborne, four of the top 10 A320 operators—American Airlines, Delta, JetBlue, and United—faced immediate peril.

American, the world's largest A320 fleet owner with 480 jets, initially pegged 340 for fixes but revised to 209 after clarification, completing most by Saturday with "all hands on deck." Delta, affecting fewer than 50 A321neos, wrapped updates overnight, minimizing chaos.

JetBlue, ground zero for the scare, canceled 70 flights Sunday and 20 more Monday, stranding thousands as it patched 120 of 150 impacted birds. United, with just six planes, reported "minor disruptions."

Across the Pacific, Asia bore the brunt, where A320s underpin short-haul networks. Japan's All Nippon Airways (ANA), the region's largest A320 operator, axed 95 domestic flights Saturday, impacting 13,200 passengers—rivals Japan Airlines, Boeing-heavy, sailed unscathed. Australia's Jetstar, Qantas's low-cost arm, grounded 34 of 85 A320s, scrapping 90 flights and leaving queues snaking through Sydney and Melbourne terminals. In Singapore, Scoot (a SIA subsidiary) fixed 21 of 29 jets by Saturday, while AirAsia aimed for 48-hour completion across its vast fleet.

India, home to one of the world's biggest A320 clusters (over 540 jets), felt the squeeze acutely. The DGCA, mirroring EASA, barred flights until compliance, affecting 338 planes: 200 IndiGo, 113 Air India, and 25 Air India Express. IndiGo, India's busiest carrier with 370 A320s, warned of "possible delays" but powered through, finishing all 200 by Sunday with zero cancellations—engineers toiling overnight at hubs like Delhi and Bengaluru. Air India, blending legacy and Vistara fleets, hit 90% completion (100 of 113) sans major hits, though four Air India Express flights fell.

"No major impact on schedule integrity," the airline insisted, but passengers on Delhi-Mumbai shuttles griped of hour-long tarmac waits for verifications.

How the A320 Recall Could Upend Holiday Travel Across Continents

- Global delays
- Massive cancellations
- Passenger stranding
- Capacity crunch
- Tourism impact
- Rebooking chaos
- Compensation disputes
- Online backlash
- Fleet adjustments
- Gradual recovery

Timing amplified the torment: the recall hit as Northern Hemisphere holidays loomed, turning routine reunions into logistical nightmares. In the U.S., post-Thanksgiving "Sundays" typically jam 3 million passengers; this year, A320 woes shaved capacity, forcing rebooks and stranding families. A Chicago mother, ticketed on American's O'Hare-to-Orlando hop, waited 12 hours for a Delta reroute, her toddler's first Disney dream deferred. Globally, 6.2 million daily A320 passengers—147,000 in India alone—faced uncertainty, with IATA estimating 824 IndiGo flights at risk.

Europe dodged the worst; easyJet preemptively patched, operating normally Saturday. But Colombia's Avianca, 70% fleet-tied, halted bookings through December 8, crippling Bogotá's holiday exodus. In Australia, Jetstar's 90 cancellations marooned 20,000, hitting tourism hard—hotels in Cairns reported 15% no-shows. Asia's Diwali hangover lingered; ANA's cuts severed Tokyo-Osaka links, while IndiGo's tweaks rippled through Delhi-Dubai corridors.

Travelers vented fury online: #A320Grounded trended with tales of missed connections, from a London bridegroom's stag do in Barcelona to a Mumbai exec's Singapore pitch. Compensation varied—EU's EC 261 mandates €250-600 for delays over three hours, plus care (meals, hotels); U.S. DOT demands refunds but skimps on extras; India's CAR 135 offers similar but enforcement lags. "It's chaos, but safety first," sighed a stranded Delhi passenger, sipping airport chai.

Maintenance Crisis: What the Airbus Recall Reveals About Aircraft Safety Oversight

Beneath the headlines lurks a deeper malaise: aviation's maintenance ecosystem, strained to breaking by post-pandemic booms and supply snarls. The A320 recall didn't just expose software sins; it spotlighted oversight gaps that let such flaws fester. Launched in 1984 as fly-by-wire's trailblazer, the A320 revolutionized safety with digital safeguards. Yet, as fleets ballooned—overtaking Boeing's 737 as history's most-delivered (12,000+ units)—vigilance waned. Airbus's admission of "limited real-time awareness" of software versions across 350 operators screams coordination voids. Regulators bear scrutiny too. EASA's directive, while prompt, relied on Airbus's self-report; the FAA's echo came hours later. In India, DGCA's ban was laudable but reactive—why no proactive solar-flare stress tests? Globally, maintenance backlogs plague: hundreds of A320s idle for Pratt & Whitney engine overhauls, per IATA. "We're firefighting with full hangars," quipped a Lufthansa technician, juggling A320 ELACs amid engine queues.

The JetBlue plunge, though non-fatal, echoes Boeing's 737 MAX saga—software hubris sidelining 387 jets for 20 months, costing $20 billion. Airbus, long the "safe" foil, now grapples similar shadows.

Experts decry over-reliance on iterative updates without holistic audits; solar interference, once niche (affecting high-altitude electronics), demands reevaluation amid solar maximum cycles peaking 2025. "This isn't isolated—it's a symptom," warns aviation analyst Richard Aboulafia.

ECONOMIC SHOCKWAVE:

Global Airlines Count the Cost of Airbus A320 Groundings

The ledger bleeds red. IATA tallies $500 million daily A320 revenue lost—$3 billion over a week, dwarfing Boeing MAX's $1 billion monthly hit. IndiGo, 60% A320-dependent, forfeited ₹200 crore in slots; Air India, post-Vistara merger, ₹150 crore. Globally, American's 209-jet idle cost $50 million; ANA's 95 cuts, ¥2 billion.

Ripple effects amplify: tourism tanks—$1.5 billion U.S. holiday shortfall; freight falters, delaying $100 million Asian exports. Suppliers scramble: Thales, ELAC-maker, faces $200 million retrofit bills; chip shortages, post-COVID hangovers, hike hardware costs 20%. Airbus stock dipped 3%, erasing €1 billion market cap; insurers brace for $500 million claims.

India's aviation, 8% GDP contributor, reels: 201,000 daily passengers disrupted, stalling ₹50,000 crore sector growth. Low-cost carriers like IndiGo, margins razor-thin (5%), absorb hits via wet-leases at 20% premiums. Long-term? Accelerated modernization—Boeing eyeing A320 refugees; startups pitching drone alternatives. The shockwave? A $10 billion global tab, per CAPA, underscoring aviation's fragility in interconnected skies.

From Supply Chains to Spare Parts: Why the A320 Recall May Last Longer Than Expected

The fix's facade hides thorns: 900 hardware swaps amid chip droughts, per Jefferies—delays to Q2 2026. Airbus's aerostructure vendors (French/German panels) flagged quality snags, grounding "limited" new-builds. Engine woes compound: Pratt & Whitney's 350-jet annual groundings clash with ELAC rushes. Global MROs, 20% capacity-strapped, queue A320s; IndiGo's secondary leases cost 15% extra. "It's a perfect storm," says analyst Aboulafia. Airbus pledges ramp-ups, but tariffs and geopolitics loom. The recall? A supply chain siren, forecasting prolonged pain.

Regulators Under Pressure: How Civil Aviation Bodies Are Responding to the A320 Crisis

EASA/FAA/DGCA triumphed in speed but face backlash: "Why no preemptive cosmic audits?" critics bay. DGCA's India ban averted disaster, but U.S. probes JetBlue's post-incident ops. Harmonization talks brew—global ELAC standards? Pressure mounts: parliamentary grillings, lawsuits. Regulators pivot to proactivity, eyeing AI oversight. The crisis? A forge for fortified skies.

Could This Trigger a Fleet Modernization Race? Airlines Reassess Reliance on A320s

Silver lining? Catalyst. IndiGo eyes Boeing 737s; Delta accelerates A350s. Airbus pitches A321XLRs—20% greener. "Diversify or die," mandates Aboulafia. Investments surge: $200 billion modernization wave by 2030. The recall? Not end, but evolution—A320's swan song, birthing resilient heirs.

Airports Brace for Chaos: Ground Operations under Strain after A320 Recall

Ground zero for the bedlam? Airports, where A320s clog 40% of slots. Delhi's T3, India's busiest, saw 200 IndiGo delays cascade into baggage pileups and gate scrambles. "It's like herding cats in a monsoon," a handler lamented, as repositioning flights—sans pax—gummed ramps.

Globally, Tampa's post-JetBlue triage swelled; Bogotá's El Dorado, Avianca's hub, teetered on blackout.

Infrastructure buckled: fuel trucks idled, de-icing crews stretched thin in Europe's chill. Narita's cargo bays, A320-reliant, delayed perishables—Japanese sashimi rotted in holds. Passenger terminals morphed into limbo lounges: Melbourne's throngs queued for refunds, while Frankfurt's lounges overflowed with rerouted elites. Staffing shortages, pandemic legacies, exacerbated woes; undertrained temps fumbled rebooks.

Yet pockets of poise emerged. Singapore Changi's AI triage smoothed queries; Mumbai's Chhatrapati Shivaji deployed extra immigration lanes.

The crisis accelerated digital pivots—self-bag drops, app-based vouchers—hinting at resilient futures. Still, as queues dissipated, scars lingered: overtime fatigue, eroded trust. Airports, aviation's unsung arteries, proved their pulse—thready, but beating.

SA Script Stunning 4-Wicket Win in 2nd ODI, Level Series against India

South Africa scripted a remarkable chase in Raipur to stun India and level series

RAIPUR

South Africa produced a sensational run chase to beat India by four wickets in the second ODI at New Raipur on Wednesday, successfully overhauling a steep 359-run target to level the three-match series 1-1. The result turns Saturday's third ODI into a high-stakes decider.

Invited to bat after losing their 20th consecutive toss, India recovered from an early jolt through a commanding top-order display. Virat Kohli (102), Ruturaj Gaikwad (105) and KL Rahul (66*) powered the hosts to 358/5, with Rahul accelerating brilliantly in the final overs.

Despite a shaky start and a slow powerplay, the Proteas rebuilt through skipper Aiden Markram's magnificent 110 off 98 balls, studded with 10 fours and 4 sixes. His steady stand with Temba Bavuma laid the platform before Harshit Rana removed him at the 30-over mark. But India failed to capitalise.

Dewald Brevis' explosive 54 tilted the chase firmly towards South Africa as Indian bowlers struggled for breakthroughs at crucial moments. Fielding lapses compounded the pressure, with Prasidh Krishna proving expensive despite eventually sending back Matthew Breetzke for 68.

Tony de Zorzi's retirement hurt briefly slowed momentum but the visitors regrouped quickly. After dismissing Marco Jansen early, India hoped for late breakthroughs, but Corbin Bosch (unbeaten) ensured the chase remained on course. He sealed the match alongside Keshav Maharaj in the 49th over, completing one of South Africa's finest away chases.

The resounding win means both teams head into the series finale with everything to play for.

FINAL SCORE

- **India:** 358/5 (50 overs)
- **South Africa:** 360/6 (49.2 overs)
- **Result**: SA won by 4 wickets
- Series: 1–1

TOP PERFORMERS

India

- Ruturaj Gaikwad — 105
- Virat Kohli — 102
- KL Rahul — 66*

South Africa

- Aiden Markram — 110
- Matthew Breetzke — 68
- Dewald Brevis — 54

KEY MOMENTS

- Kohli & Gaikwad hit twin tons
- Markram–Brevis counter-attack breaks India's grip
- Fielding lapses hurt India
- Bosch–Maharaj finish calmly under pressure

Haaland Fastest Player to 100 Premier League Goals

Erling Haaland hits milestone in just 111 games as Manchester City edge Fulham 5–4

LONDON

Erling Haaland etched his name deeper into Premier League history, becoming the fastest player to reach 100 goals in the competition as Manchester City clinched a chaotic 5–4 win over Fulham at Craven Cottage.

The 25-year-old Norwegian reached the landmark in just 111 matches, eclipsing Alan Shearer's previous record of 124 games. Haaland struck in the 17th minute, drilling a first-time left-footed shot from a Jeremy Doku cross — a finish typical of his ruthless precision.

Shearer still holds the overall Premier League record of 260 goals, but Haaland's extraordinary rate has already sparked conversations about whether he could one day surpass the Newcastle United legend.

City manager Pep Guardiola was full of admiration for his star striker. "If you told me when he arrived that he'd score 100 goals in 111 games, I'd say, 'Are you sure?' The numbers are insane," he said. "He was outstanding today. Hopefully he stays hungry and keeps scoring for this club."

Haaland, whose father Alf-Inge Haaland watched proudly from the stands, said the achievement meant a great deal. "Proud moment — the 100 club is a huge thing," he said. "To do it this quickly is amazing. I'm proud, I'm happy. A striker for City should score a lot of goals — that's my job. I should have had a hat-trick today."

Having been stuck on 99 for two matches after misses against Newcastle United and Leeds United, Haaland showed no hesitation this time. His tally of 15 league goals this season keeps him atop the scoring charts as City continue their pursuit of multiple trophies.

With his physical dominance, clinical finishing and relentless mentality, Haaland's century feels less like a destination and more like the beginning of an even larger legacy.

Promoters evaluate Rajiv Gandhi Stadium, plan festivities for Lionel Messi's Hyderabad visit

Messi's GOAT Tour Promoters Inspect Hyd Venue Ahead of Event

HYDERABAD

With Lionel Messi scheduled to visit Hyderabad on December 13, the promoters of the GOAT Tour conducted a detailed inspection of the Rajiv Gandhi International Stadium, the proposed venue for the GOAT Cup. The delegation included Parvathi Reddy, chief patron and advisor, Satadru Dutta, chief promoter of The GOAT Tour India, along with Messi's international tour adviser Christopher Flannery and personal manager Pablo Negre. Dr. Rohin Reddy, a member of the coordination committee, also attended.

The group surveyed the stadium, focusing on entry and exit points, crowd management, and overall security arrangements. The inspection coincided with a Syed Mushtaq Ali Trophy match between Baroda and Punjab, which drew over 10,000 fans, allowing the promoters to gauge the atmosphere and logistics.

Dr. Rohin highlighted that the team also discussed the event schedule, security measures, and programme details. Messi is set to kick off an exhibition football match alongside Telangana Chief Minister Revanth Reddy, and conduct a football clinic for budding youngsters, providing them a rare opportunity to train with the global superstar.

In addition to sporting activities, the event will feature cultural programmes and appearances from stars of the film industry, creating a festive atmosphere for attendees. The celebrations are expected to conclude by 9 p.m., after which Messi will depart for Mumbai to continue the third leg of his tour.

The inspection reflects meticulous planning by the GOAT Tour team, ensuring smooth execution and a memorable experience for fans in Hyderabad while maintaining high standards of safety and logistics for the global football icon.

Serena Williams Shuts Down Comeback Rumours, Says Not Returning to Tennis

LOS ANGELES

Serena Williams firmly dismissed speculation about a potential tennis comeback, stating on social media that she is "NOT coming back," despite reports that she had reentered the International Registered Testing Pool overseen by the International Tennis Integrity Agency (ITIA). The 23-time Grand Slam champion's name appearing in the pool is typically the first formal step for any retired player seeking a return to competition.

The 44-year-old last played professionally at the 2022 U.S. Open, where she bid an emotional farewell but declined to use the word "retirement," saying she was "evolving" away from the sport. Her recent registration sparked widespread buzz, prompting the tennis star to clarify matters online: "Omg yall I'm NOT coming back. This wildfire is crazy."

Her agent did not immediately comment, but the U.S. Tennis Association acknowledged the development. Spokesman Brendan McIntyre noted that Serena had "filed the necessary paperwork" and added that the organisation would "enthusiastically welcome" her if she decided to compete again.

The ITIA confirmed her inclusion in the pool, explaining that returning athletes must provide detailed whereabouts and remain available for testing for six months before reentering official competition. This requirement applies to anyone returning after retirement.

Serena remains one of the sport's most influential figures, her presence still commanding attention worldwide. A comeback would be a landmark storyline, especially following the recent return of her sister Venus, who resumed competition in July at age 45 after an 18-month break.

K. Mahesh Wins First Place in National Shooting Competition

BENGALURU

In the 2nd National Shooting Competition organized by the Karnataka State Rimfire and Benchrest Shooting Federation, K. Mahesh of Hosakote Town secured first place by scoring 245 points out of 250 in the 45-year age group. MLA Sharath Bachegowda presented the award certificate to the winners. Prizes were distributed. Planning Authority Chairman N Kesavamurthy congratulated Mahesh for his excellent performance. Karnataka State Rimfire and Benchrest Shooting Federation Treasurer H.R. Mahesh Babu, Directors Dr. John Paul and Puneeth Kumar were present.

Karnataka's Naveen Appu Scripts History with Double Asian and World Titles

PATTAYA (THAILAND)

Karnataka's bodybuilding star Naveen Appu has etched his name in the sport's history books by clinching both the Asian Championship and the World Championship titles at the 2025 Mr & Mrs World Pro and Asian Championship held in Pattaya, Thailand. The event, organised by the United World Sports and Fitness Federation (UWSFF), saw Naveen emerge as the first Kannadiga to achieve this extraordinary double triumph, bringing immense pride to the state and the country.

Competing in the fiercely contested 90+ kg bodybuilding category, Naveen outshone competitors from 11 countries, proving his strength, discipline and consistency on the international stage. Representing India through the United Karnataka Bodybuilders and Fitness Association (UKBFA), he delivered back-to-back stellar performances at the Asian Championship on November 28 and the World Championship on November 29.

First Kannadiga wins dual UWSFF Asian and World bodybuilding titles in Thailand

The event witnessed participation from over 600 athletes, with nearly 20 nations vying for top honours at the World Championship and 7–8 countries competing in the Asian segment. Naveen not only dominated bodybuilding but also secured first place in weightlifting and arm wrestling, further showcasing his all-round prowess.

With a competitive career spanning over 25 championships, Naveen has consistently proven his mettle. His illustrious achievements include four Mr India titles, seven Mr Karnataka wins, three Mr South India titles, and the Mr Bengaluru crown in 2018. He has also been a notable presence at the Mysuru Dasara bodybuilding showcase, cementing his place as one of Karnataka's finest athletes.

Naveen was accompanied by his family, Bannerghatta social worker Anil Nirani, and close friends, who witnessed his remarkable journey culminating in this historic international victory.

Bara Rally Past Atletico Madrid 3–1 to Extend La Liga Lead

BARCELONA

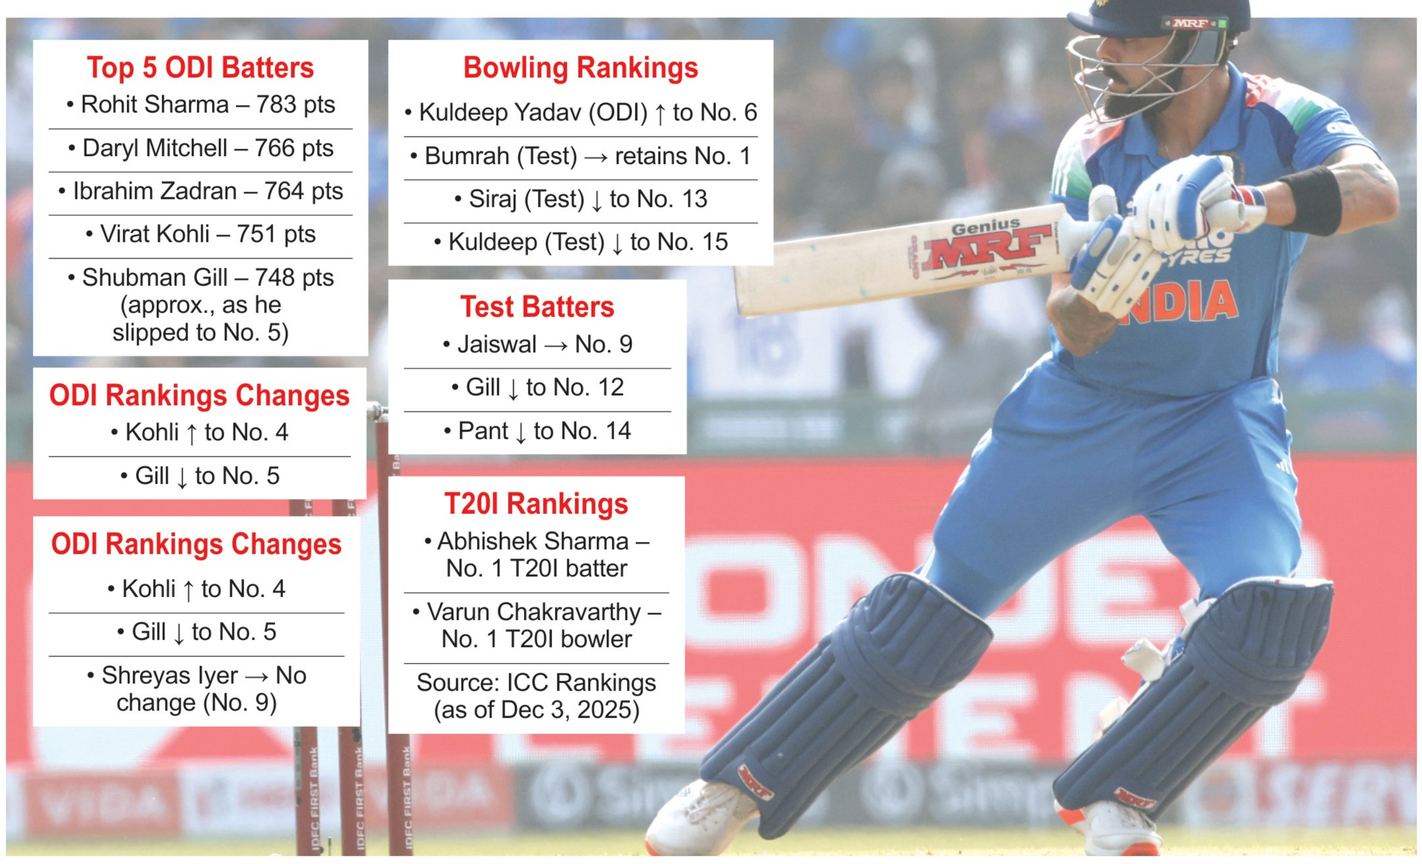
Barcelona staged a spirited comeback to defeat Atletico Madrid 3–1 at the Camp Nou, extending their advantage at the top of La Liga to four points. Despite falling behind early, the champions responded with authority as Raphinha, Dani Olmo and Ferran Torres found the net to end Atletico's 13-match unbeaten league run.

Alex Baena opened the scoring for Atletico after breaking behind Barcelona's high defensive line, with VAR confirming his effort. But Barca equalised swiftly in the 26th minute when Pedri threaded a pass to Raphinha, who rounded Jan Oblak to slot home. The hosts had a golden chance to take the lead before half-time, only for Robert Lewandowski to balloon a penalty over the bar after Dani Olmo was fouled.

Real Madrid, currently second, face Athletic Bilbao on Wednesday as they aim to close the gap. Atletico, meanwhile, remain fourth, six points behind Barcelona.

Following recent inconsistencies — including a 3-0 Champions League loss to Chelsea — Barcelona's display against a title rival offered coach Hansi Flick a timely morale boost. "This is the spirit we need to turn around games like this," Raphinha said. Barca, missing Ronald Araujo, Frenkie de Jong and several long-term absentees, continued their momentum in the second half. Olmo put them ahead with a composed finish, though he was forced off moments later with a shoulder injury. Pedri also departed after appearing to pick up a knock, prompting concern ahead of next week's Champions League clash with Frankfurt.

Atletico pushed for an equaliser, with Thiago Almada and Antoine Griezmann both missing key opportunities. In stoppage time, substitute Marcus Rashford was denied by Oblak before Alejandro Balde squared for Ferran Torres to seal the win.



Top 5 ODI Batters
- Rohit Sharma – 783 pts
- Daryl Mitchell – 766 pts
- Ibrahim Zadran – 764 pts
- Virat Kohli – 751 pts
- Shubman Gill – 748 pts (approx., as he slipped to No. 5)

Kohli No. 4 in ODI Rankings after Ranchi Masterclass

Kohli's 135-run knock against South Africa lifts him to fourth in ICC rankings

DUBAI

Virat Kohli jumped one spot to No. 4 in the latest ICC ODI rankings released on Wednesday, riding on his match-winning century in the opening ODI against South Africa in Ranchi.

The 37-year-old, who struck a 120-ball 135 in India's 17-run win, now sits at 751 rating points. He trails ODI No. 1 Rohit Sharma (783), New Zealand's Daryl Mitchell (766) and Afghanistan's Ibrahim Zadran (764).

Kohli's rise pushed India's ODI captain Shubman Gill down to No. 5, with the young opener missing the ongoing three-match series due to a neck injury. Shreyas Iyer, still recovering from a knock picked up during India's white-ball tour of Australia, remained steady at No. 9.

Left-arm wrist spinner Kuldeep Yadav also gained from his performance in Ranchi, moving up one place to sixth after claiming four wickets.

In the Test rankings, India opener Yashasvi Jaiswal held firm at No. 9, while Gill slipped to No. 12. Wicket-keeper-batter Rishabh Pant dropped two spots to 14.

Among Test bowlers, Jasprit Bumrah continued to dominate the charts with 879 points, comfortably ahead of New Zealand's Matt Henry (846). Meanwhile, Mohammed Siraj and Kuldeep faced slight setbacks, falling to 13th and 15th after modest outings in the recent two-Test series against South Africa.

In T20Is, Indian players continued their stronghold, with Abhishek Sharma and Varun Chakravarthy retaining top positions in the batting and bowling lists respectively.

Kohli Set to Play Vijay Hazare Match in B'luru on Dec 24

BENGALURU

Virat Kohli will feature for Delhi in a key Vijay Hazare Trophy fixture

Cricket fans in Bengaluru are in for a rare treat as Virat Kohli is set to play a domestic one-day match in the city after several years. The star batter has confirmed his availability for Delhi's Elite Group D clash against Andhra in the Vijay Hazare Trophy on December 24, to be held at the Alur Cricket Stadium on the outskirts of Bengaluru.

Kohli, 37, recently showcased his sublime form by scoring his 52nd ODI century against South Africa in the series opener at Ranchi. Despite limiting himself to just one international format, his sharpness at the crease has remained unquestionable. "He has confirmed his availability to play in the Vijay Hazare Trophy. How many games he will feature in is not clear yet, but his presence will be a massive boost to the Delhi dressing room," Delhi and District Cricket Association (DDCA) chief Rohan Jaitley said.

Delhi share their group with Gujarat, Saurashtra, Odisha, Services, Railways and Haryana. While Karnataka will be playing Kerala in Ahmedabad on the same day, the spotlight is firmly on Kohli's appearance in Alur. The league phase is scheduled to be held entirely in Alur, while the knockout matches—including the final—will take place at the BCCI Centre of Excellence Ground.

However, Kohli will not be available for the knockout stage should Delhi qualify, as he is set to participate in India's three-match ODI series against New Zealand from January 11 to 18, 2026.

Kohli's presence is expected to draw large crowds, as seen earlier this year when more than 12,000 spectators turned up for a Ranji Trophy match he featured in—an extraordinary turnout for a domestic fixture. Although he used that outing as preparation for international commitments, he later surprised many by announcing his retirement from Test cricket ahead of the England tour.

BCCI regulations require contracted players to participate in domestic tournaments unless injured or on national duty, making Kohli's participation both significant and timely.

Shubman Declared Fit, Returns as Vice-Captain for SA T20 Series

MUMBAI

Star India batter Shubman Gill has been declared fit and will feature in the upcoming T20 International series against South Africa, returning as vice-captain after recovering from a neck injury that sidelined him from the ongoing ODI leg of the tour. A senior Board of Control for Cricket in India (BCCI) official confirmed Gill's availability on Wednesday, offering a major boost to India's top order ahead of the five-match series.

Gill, 26, had sustained the injury during the opening Test against the Proteas in Kolkata, forcing him to miss the second Test in Guwahati as well as the subsequent ODI series. His absence had prompted temporary leadership discussions for the limited-overs leg, but clarity has now emerged with his full recovery. "Gill has recovered fully and will be back as vice-captain," the BCCI source said.

The stylish opener, who also leads India in Tests and ODIs, is expected to slot back into the T20 setup under regular skipper Suryakumar Yadav. India will announce the complete squad for the series in the coming days.

The T20 series begins on December 9 in Cuttack, followed by fixtures on December 11 in Chandigarh, December 14 in Dharamsala, December 17 in Lucknow, and the final match on December 19 in Ahmedabad. The return of Gill, known for his fluent strokeplay and consistency, is likely to strengthen India's batting depth as the team looks to fine-tune its combinations ahead of next year's major tournaments.

Shubman Gill has recovered from his neck injury and will rejoin India's T20 squad

India sealed their FIH Junior World Cup quarterfinal berth with a commanding victory

India Storm into Quarterfinals with Dominant 5–0 Win Over Switzerland

MADURAI

India secured their place in the quarterfinals of the FIH Men's Junior Hockey World Cup with an emphatic 5–0 win over Switzerland in their final Pool B encounter at the Madurai International Hockey Stadium. The world No. 2 side delivered a clinical performance, powered by braces from Manmeet Singh and Sharda Nand Tiwari, to finish the group stage unbeaten.

Manmeet, celebrating his birthday, opened the scoring early after converting a sharp assist from Dilraj Singh. Though Switzerland's goalkeeper Timo Graf saved India's first penalty corner, Manmeet doubled the lead moments later, deflecting Talem Priyobarta's free hit into the net. India maintained pressure, and drag-flicker Sharda Nand Tiwari made it 3–0 by converting a penalty corner at the end of the first quarter.

Arshdeep Singh added India's fourth just before halftime, scoring with a crisp backhand after Graf denied Manmeet a chance to complete his hat-trick. The third quarter saw Switzerland nearly pull one back through a penalty stroke, but Indian goalkeeper Prince Deep Singh executed a brilliant rightward dive to keep the clean sheet intact.

In the final quarter, Sharda Nand Tiwari struck again from another penalty corner, extending India's lead to 5–0. A late attempt by Arshdeep was disallowed after video referral confirmed a foul by Dilraj Singh, but the hosts' dominance remained unquestioned.

Despite the heavy loss, Swiss keeper Timo Graf stood out with several exceptional saves. India, however, will look to improve their penalty corner conversion rate, scoring just two of their eight attempts—both courtesy of Tiwari, who has effectively filled the void left by injured drag-flicker Araijeet Singh Hundal.

Earlier in Chennai, Chile defeated Oman 2–0 in the other Pool B fixture. India topped the group with nine points and will now return to Chennai for their quarterfinal on Friday.

Here is a clean, newsroom-style infographics section you can add at the end of the story. You can simply place it below the article or beside it depending on layout.

FIH MEN'S JUNIOR HOCKEY WORLD CUP — INDIA vs SWITZERLAND

Team	Played	Won	Lost	Points
India	3	3	0	9
Switzerland	3	2	1	6
Chile	3	1	2	3
Oman	3	0	3	0

Former England Batter Robin Smith Dies at 62

LONDON

Former England batter Robin Smith, celebrated as one of his era's bravest and most technically accomplished players, passed away at his home in Perth, Australia, aged 62. Smith played 62 Tests between 1988 and 1996, scoring 4,236 runs at an excellent average of 43.67 with nine centuries. His legacy, however, rests on more than numbers.

Revered for his fearless batting against hostile pace, Smith flourished during a period dominated by formidable West Indies fast bowlers such as Curtly Ambrose, Courtney Walsh, Malcolm Marshall and Patrick Patterson. His trademark square cut became symbolic of his defiance, helping England secure consecutive 2–2 Test series draws against the West Indies in the early 1990s.

ECB Chair Richard Thompson hailed him as a player who met world-class fast bowling "with a defiant smile," recalling Smith's iconic unbeaten 167 against Australia at Edgbaston in 1993. Born in Durban in 1963, Smith moved to England under the guidance of Barry Richards and Mike Procter. Though later troubled by struggles against spin and personal battles with alcoholism, he remained admired for his grit, style and courage.

Teams Must Not 'Pigeonhole' Test Cricket, Says Jonathan Trott

DUBAI

Former England batter and Afghanistan head coach Jonathan Trott has urged the cricketing fraternity not to "pigeonhole" Test cricket into a single style, emphasising that the format's beauty lies in its diversity. Speaking during a media interaction at the ILT20, Trott said there was nothing wrong with India continuing to rely on spin-friendly surfaces that reflect their strengths and conditions.

India had opted for a dry, "underprepared" pitch in the opening Test in Kolkata—a move that backfired as South Africa dominated and eventually swept the two-match series, their first Test series win in India in 25 years. But Trott argued that such conditions are part of cricket's global character. "When you go to India or Sri Lanka, it's going to spin. Australia will always be pacey and bouncy. That's what makes cricket great," he said. "You don't want to suddenly have a roll. As a player and coach, adapting to those differences is the biggest challenge."

Trott also cautioned against nostalgia-driven criticism of modern cricket, referencing India's 2-2 draw in England last summer. "You saw contrasting styles—Shubman Gill leading from the front, and Ben Stokes using Bazball. There was a time when we said cricket was boring with too many draws; now we say matches end too quickly. We must avoid thinking the grass is always greener."

The former England No. 3 defended Bazball as a valid, aggressive route to winning. "Brendon and Stokes will back their style in Australia. They've lost games before and still won series. I wouldn't bet against England," he added. On four-day Tests, Trott was categorical: "No." A member of the ICC Men's Cricket Committee, Trott also called for structured global windows for international and franchise cricket to avoid calendar chaos.

Ex-India Captain Mamatha Maben Takes Charge as HK Women's Head Coach

BENGALURU

Former India women's cricket team captain Mamatha Maben has been appointed head coach of the Hong Kong women's side on a three-year contract, marking another significant chapter in her coaching journey that has previously taken her to Bangladesh and China. The move comes even as Hong Kong, China are in the midst of a four-match T20I series in Malaysia that began on November 30.

Maben, 55, said she applied for the role after an acquaintance pointed her to an advertisement by Cricket Hong Kong, China. "I had to go through a couple of interview rounds before I got the job," she said, expressing optimism about the project despite the inherent challenges faced by associate nations.

With limited resources, facilities and player availability posing consistent hurdles, Maben remains determined to elevate the team's competitiveness. "My target is to take them at least five ranking points up over the next couple of years. I want to work extensively to enhance their skill sets. While there are many challenges working with an associate nation, I'm confident we can show growth," she said.

Her tenure will also involve long-term planning, with particular focus on the Asian Games in Japan next year and the expanded 16-team ICC Women's T20 World Cup in 2030. Maben added that she is eager for a "productive and exciting time" with Cricket Hong Kong, China.

A veteran of India's women's setup, Maben played 40 ODIs and four Tests between 1993 and 2004, making her debut at the 1993 World Cup. Her transition from player to international coach continues to underscore her influence on the global development of women's cricket.
